Redmond area students named to the list include:

Daisy Altamirano
Erika Benitez
Brad Bennett
Jacob Blood
Brett Blundell
Leticia Blundell
Colby Brickwell
Katelyn Brickwell
Katherine Campbell
Natasha Cawood
Sydney Coreas
Cristian Corona-Smith
Fiona Curley

Isabella Davis
Kris Desaigouard
Adrian Diel
Adam Digiacomio
Elisa Durham
Denise English
Darby Estes
Sydney Faircloth
Shane Fritter
Jessica George
Christopher Gillespie
Aylin Gomez Acosta
Owen Goodrich
Ryan Goold
Kylar Graziano
Brandon Gregg
Jose Guzman
Kaleb Hartman
Ella Hayden
Drake Henry
Damien Hepker
Maya Johnson
Josh Klein
Sydney Kopp

Mark Landman
Taylynn Lindsey
Joseph Long
Christopher Maddox
Hunter Marksberry
Angela McCarter
Derek McEathron
Kathryn Moser
Christina Mulder
Elizabeth Oliver
Johanna Orris
Samantha Patterson
Frederick Pellissier
James Posey
Sandra Quintana
Kyle Reilly
Zakkery Reznicek
Mark Riedell
Gia Rodriguez
Madeline Rottum
Steven Rottum
Jacob Scholz
Stacy Shaw
Jessie Spendlove

Josephine Stevenson
Kaisha Stokes
Evan Swanson
Abraham Toribio-Benitez
Cynthia Walsh
Christina Walton
Brooks Webber
Anna Wheeler
Eleora Wilson
Chris Yost
Jacob Yozamp

TERREBONNE

Lucas Anderson
Amber Frescas

Redmond adds portal to register alarm system

City charges \$250 fee for unpermitted false alarm calls

BY TIM TRAINOR

Redmond Spokesman

The city of Redmond charges residents \$250 if their home or business has an unpermitted, centrally-monitored alarm system that makes a false call and requires a police response.

The Redmond Police Department has now launched a new permitting management portal where users can register their systems and pay fees.

According to the Redmond Police Department, officers in 2021 responded to a total of 444 calls for service related to alarm systems — 96% of which were false alarms. According to the city, those errors cost the city thousands of dollars, waste time of police and emergency services personnel and annoy surround-

Redmond Police

ing homes and businesses.

The city of Redmond requires all centrally monitored alarm systems to be permitted within 30 days of becoming operational. Permits are \$40 and valid for three years. After three years, the renewal fee is \$10.

The portal can be found at: www.crywolfservices.com/redmondor.

Car alarms, life alert systems, RING and other non-centrally monitored systems do not require permits.

Fines are issued after the first false call for service to a home or business. A \$100 fine will be applied for the second call and a \$250 charge for each subsequent false alarm.

There will be a \$250 fee for the first false alarm on an un-

registered system. That fee may be waived if the system is registered within 30 days.

Residents can learn more about the false alarm program and/or register for a permit online at <https://www.redmondoregon.gov/government/departments/police/alarms-commercial-residential>.

Redmond climber falls, treated at Smith Rock

DCSO and Redmond Fire & Rescue assist climber after falling from Student Wall

BY NICK ROSENBERGER

Redmond Spokesman

A 34-year-old Redmond man was rescued from an unimproved climbing area near Student Wall at Smith Rock State Park on Monday, July 18 after falling approximately 50 feet and rolling another 40 feet over rocks and debris.

According to the Deschutes County Sheriff's Office, 911 dispatch was alerted to the fall at 6:41 p.m. Monday. Shortly after, 15 Moun-

tain Rescue volunteers and two deputies left for the site, arriving at roughly 8 p.m.

Redmond Fire & Rescue was able to hike to the patient as the Search & Rescue team set up a system of ropes and a litter to hoist the patient up approximately 110 feet of cliff face in the dark.

The injured climber was successfully hoisted up the cliff and was treated by Redmond Fire & Rescue about 11:12 p.m. Monday night.

According to the report, "the patient ... was reported to be an avid climber and was just about to hook in to a rope system when the fall occurred."
