

FLASHBACK

Redmond becomes a campus town in 1997

100 Years Ago

Sept. 7, 1922 — Modern houses needed

There is a move on foot to decide upon a "Build A House" campaign. The ideas to make a careful canvass of the citizens who are able to finance the building of a modern house in Redmond, and to get each one to sign an agreement to immediately start construction, in order to provide homes that can be rented by new families coming to town.

Within the past 60 days there have been several families who were unable to find a place to move into and they have moved on, and the promoters of the new move are trying to fix things so that there will be no recurrence of this condition in the future.

As fast as the names are secured, they will be published in this paper, and it is to be hoped that the list will be a long one, as there is a need for a number of small modern houses right off.

75 Years Ago

Sept. 11, 1947 — Texas residents on motor tour stop, buy court

After touring over a large portion of Alaska, Canada and the U.S.A. since March 3, Mr. and Mrs. Kenneth G. Davies decided they wanted to live in Central Oregon. On a day not long ago they came through Redmond en route from Bend to Pendleton — the next day they had purchased the Waldron Motor Court.

The new owners, who are from San Antonio, Texas, bought the seven cabins, service station and modern home from Mr. and Mrs. Ira E. Waldron.

"We were en route to Pendleton to arrange for accommodations at the Round-Up there," Mrs. Davies said, "and we saw the motor courts as we drove through town. Just on the chance that it might be possible to buy the business, we stopped — and the next day we owned it."

A present decorating is planned, with future enlargement under consideration.

50 Years Ago

Sept. 13, 1972 — Old-time fiddlers to play in Sisters

Sisters — Between 25 and 50 fiddlers from Oregon, Washington, Idaho and Montana will arrive in Sisters Saturday, Sept. 16, to enter the town's first Old-Time Fiddlers' contest.

Fiddle music begins at 2 p.m. in the Sisters School gymnasium. Also on the agenda are exhibition fiddling planes and square dancing. The contest, sanctioned by the Old-Time Fiddlers Association, will be judged by three women who are national fiddler champions.

Spaghetti dinner from 6 to 8 p.m. will be followed by dancing. Live country rock music for all

ages will be furnished by a band from The Dalles from 9 p.m. to 1 a.m.

Chairman is Don Mauser, assisted by Lloyd Hewitt and Harold Wray. Sponsor is the Sisters Community Education Program.

25 Years Ago

Sept. 10, 1997 — Redmond becomes a campus town — First COCC building set to open by airport

Sun streamed across the empty room, undeterred by desks, chairs or tables. Electrical plug-ins line the square space, dotting bare walls at 3-foot intervals.

Next week, furniture will fill that void. And those modern essentials — the phone and fax machine — are plugged in.

By the first day of fall term September 22, Central Oregon community college will be ready to put out the welcome mat at the first building in the North campus in Redmond. Walk-in registration will begin Monday.

Built of rose-colored block with evergreen metal accent roofs, the north campus is located just west of the Redmond airport at 255 SE Salmon Ave.

The college will christen the campus with nine business classes. Students will be able to earn an associates business degree in three years in Redmond.

One class this fall will be in the distance-learning room, where instruction will be broadcast live over a wireless cable channel from the COCC campus in Bend. The distance-learning room, the first thing visitors see upon entering the \$1.3 million Campus Center, occupies the central space in the two-winged structure.

COCC is on the right half of the building while the Oregon Innovation Center, also expected to open this fall, is situated on the left.

Carol Moorehead, the college's Redmond director, said construction went smoothly.

"Finding a place for the baby changing table in the men's rest room was the most interesting meeting we had," she said.

The new building — much larger than COCC recently vacated space at 716 SW Forest Ave. — allows Redmond to offer more, different credit classes and more computer classes. Eventually, computer lab time for students in the public will be available.

People in Redmond are being crushed by rising gas, food, and housing prices. As your City Councilor, and a local small business owner, I understand this skyrocketing cost of living is unsustainable for families and businesses alike.

As your City Councilor today, and with your vote in November, I will continue to work to create more affordable housing and job opportunities in Redmond.
