Silver Moon Brewing

Central Oregon's fourth-oldest brewery set up camp in Redmond at the end of 2015 with a large-scale production facility. The expansion of brewing capabilities came after Silver Moon opened up lanes of distribution in Washington earlier in 2015. The location is a retrofitted 15,000-square-foot building that quadruples the brewery's annual production to nearly 6,000 barrels. Its location in Bend will continue to operate with a focus on specialty beers and maintaining a beer pub atmosphere. The two main beers produced in Redmond are IPA 97 and Chapter 2 Casual Ale. www.silvermoonbrewing.com
