The Reporter Succeeded.
In New York on one occasion a reporter made several vain attempts to see J. Pierpont Morgan, both at his office and his residence. Finally his opportunity came. He was interviewing another financier and incidentally came into possession of the latter's card. He kept it; then, going to Morgan's residence, he sent in his own card in company with that of the financier. The ruse was successful, and he was shown into Morgan's presence. When the reporter had stated his reason for the call the financier said: "Do you know, young man, that at least ten reporters have tried to see me today with reference to this question? I have declined to see any of them." The reporter smiled and replied, "Yes, sir. I know that, for I was the whole ten." He got his interview.

A Happy New Year

We hope yours will be so. During the year just past you have favored us with your business and we have endeavored to merit your continuance. We hope that the coming year may be truly a happy one for our customers. We are going to try more than ever before to make this store not only attractive, but continue to sell the best merchandise at the lowest prices. We have just closed a very successful few months, and we have given our customers better grades and lower prices. The fact that we have had such a liberal share of your patronage has made this possible. We will endeavor to make the next year even better than the one just closed.
