

A Bold Step.

To overcome the well-grounded and reasonable objections of the more intelligent to the use of secret, medicinal compounds, Dr. R. V. Pierce, of Buffalo, N. Y., some time ago, decided to make a bold departure from the usual course pursued by the makers of put-up medicines for domestic use, and so has published broad-cast and openly to the whole world, a full and complete list of all the ingredients entering into the composition of his widely celebrated medicines. Thus he has taken his numerous patrons and patients into his full confidence. Thus too he has removed his medicines from among secret nostrums of doubtful merits, and made them *Remedies of Known Composition.*

By this bold step Dr. Pierce has shown that his formulas are of such excellence that he is not afraid to subject them to the closest scrutiny.

Not only does the wrapper of every bottle of Dr. Pierce's Golden Medical Discovery, the famous medicine for weak stomach, torpid liver or biliousness and all catarrhal diseases wherever located, have printed upon it, in plain English, a full and complete list of all the ingredients composing it, but a small book has been compiled from numerous standard medical works, of all the different schools of practice, containing very numerous extracts from the writings of leading practitioners of medicine, endorsing in the strongest possible terms, each and every ingredient contained in Dr. Pierce's medicines. One of these little books will be mailed free to any one sending address on postal card or by letter, to Dr. R. V. Pierce, Buffalo, N. Y., and requesting the same. From this little book it will be learned that Dr. Pierce's medicines contain no alcohol, narcotics, mineral agents or other poisonous or injurious agents and that they are made from native, medicinal roots of great value; also that some of the most valuable ingredients contained in Dr. Pierce's Favorite Prescription for weak, nervous, over-worked, "run-down," nervous and debilitated women, were employed, long years ago, by the Indians for similar ailments affecting their squaws. In fact, one of the most valuable medicinal plants entering into the composition of Dr. Pierce's Favorite Prescription was known to the Indians as "Squaw-Weed." Our knowledge of the uses of not a few of our most valuable native medicinal plants was gained from the Indians.

As made up by improved and exact processes, the "Favorite Prescription" is a most efficient remedy for regulating all the womanly functions, correcting displacements, as prolapsus, anteversion and retroversion, overcoming painful periods, toning up the nerves and bringing about a perfect state of health. Sold by all dealers in medicines.

THE SHEPHERD.

When fed in large flocks the sheep should be driven from the feed yard during the time the racks are being filled; this will overcome the tendency to overcrowding and prevent injury to the sheep from the wagon and team. The quantity of silage to be fed should be governed largely by the appetite of the flock, but it is not usually advisable to feed over three pounds per head daily. For sheep weighing 125 pounds about 2.5 pounds of silage and 1.5 pounds of hay will be ample; and if one-half pound of grain or bran be fed slightly less hay will suffice. If grain is fed it is not a proper plan to mix it with coarse feed, as the sheep are inclined to root out and waste this feed in their efforts to get the grain.

In Western Oregon.

Sheep husbandry in western Oregon is conducted on lines that would be a revelation to many farmers. In the matter of pasture, land is plowed and sown to wheat about Oct. 1, and, in a normal season, by the following February a luxuriant pasture will be furnished for the ewes and lambs or for fattening sheep.

It Gives Vital Tone.

The effect of salt on the health of the sheep is not generally understood. Its effect is to give tone to the organism. The ash of the blood of a healthy sheep contains about 60 per cent salt, and the ash of urine 33 per cent.

The scarcity of such an important constituent in the blood means a relaxation of vital energy.

Lambs For Early Market.

Corn meal is an excellent feed for young lambs that are to be fattened quickly. After this comes bran. Linseed meal may be fed in small quantities.

The Sheep's Foot.

Don't neglect to trim off any overgrowth of the horny part of the foot. Manure and filth will accumulate and trouble likely follow later. While examining the feet don't fail to have sharp shears at hand to trim off the tag locks that are an annoyance to the sheep and mean a loss of wool.

Hog Cholera.

So far as I am able to learn, the farmers in our state as well as the farmers in other states have not as yet secured any remedy which will cure hog cholera, says Professor W. J. Kennedy of Iowa in Rural New Yorker. Personally I do not think that such a thing exists as a remedy which will cure without fail all cases of hog cholera. We have had a little experience on the College farm with hog cholera, and we always used preventive measures to overcome the same. I think that when hog cholera is in the neighborhood it is a very wise policy for every farmer who owns hogs to use disinfectants very freely. He should divide up his hogs into small lots and feed them on rations of a thin, sloppy order. Skim milk is very good at this time or a thin slop made of water and wheat shorts. By all means avoid the heavy feeding of corn.

Jingled His Wealth.

Young Scotch Precensor—Man Tammas, there's ae thing bothers me sair when I'm singin', an' I canna get ower't. I'm awfu' nervous.

Old Precensor—Aye, aye. I wis the same as you when I wis young, but I found out a cure, an' I've aye kept tae't. I jist pit seven or acht coopers in my pouch, an' when I feel the nervousness beginnin' I give them a bit rattle. It mak's me feel kin' o' whit I may ca' independent like. Try't, mon, try't.—Dundee Advertiser.

Babes as Bait.

"Wot do ye think," said the sailor, "of usin' live babies for bait? We done it in Ceylon."

"Babies for bait? Fishing for shark?" "No. Crocodile. Baby bait is the only thing for crocodile, and everybody uses it. Ye rent a baby down there for half a dollar a day. Of course," the sailor went on, "the thing ain't as cruel as it sounds. No harm ever comes to the babies, or else, o' course, their mothers wouldn't rent 'em. The kid is simply sot on the soft mud bank of a crocodile stream and the hunter lays hid near him, a sure perfection. The crocodile is lazy. He basks in the sun in midstream. Nothin' will draw him in to shore where ye can pot him. But set a little fat naked baby on the bank and the crocodile soon rouses up. In he comes, a greedy look in his dull eyes, and then ye open fire. I have got as many as four crocodiles with one baby in a morning's fishin'. Some Cingalese women wot lives near good crocodile streams make as much as \$2 a week recog'lar out o' rentin' their babies for crocodile bait." —Cincinnati Enquirer.

WHEN TO GO HOME.

From the Bluffton, Ind., Banner: "When tired out, go home. When you want consolation, go home. When you want fun, go home. When you want to show others that you have reformed, go home and let your family get acquainted with the fact. When you want to show yourself at your best go home and do the act there. When you feel like being extra liberal go home and practice on your wife and children first. When you want to shine with extra brilliancy go home and light up the whole household." To which we would add, when you have a bad cold go home and take Chamberlain's Cough Remedy and a quick cure is certain. For sale by Brewer Drug Co.

Mutual Blindness.

A young lady who often thot out loud had just been shown thru a garter factory.

"Heavens!" she exclaimed: "ninety million pair in one year? I don't see where they all go to."

"Neither do I," replied the young man, coloring slightly.—Judge.

BADLY MIXED UP.

Abraham Brown, of Winterton, N. Y., had a very remarkable experience; he says: "Doctors got badly mixed up over me; one said heart disease; two called it kidney trouble; the fourth, blood poison, and the 5th stomach and liver trouble; but none of them helped me; so my wife advised trying Electric Bitters, which are restoring me to perfect health. One bottle did me more good than all the 5 doctors prescribed." Guaranteed to blood poison, weakness and all stomach, liver kidney complaints, by Brewer Drug Co. 50c.

The best preacher is the heart; the best teacher, time; the best book, the world; the best friend; God.

ABOUT DIGESTION.

It is not the quantity of food taken but the amount digested and assimilated that gives strength and vitality to the system. Chamberlain's Stomach and Liver Tablets invigorate the stomach and liver and enable them to perform their functions. The result is a relish for your food, increased strength and weight, greater endurance and a clear head. Price, 25c. Samples free. For sale by Brewer Drug Co.

Do not make woman weep, for God counts her tears.

HOW DIPHTHERIA IS CONTRACTED.

One often hears the expression, "My child caught a severe cold which developed into diphtheria," when the truth was that the cold had simply left the little one particularly susceptible to the wandering germ. When Chamberlain's Cough Remedy is given it quickly cures the cold and lessens the danger of diphtheria or any other germ disease being contracted. For sale by Brewer Drug Co.

A HOME MADE HAPPY BY CHAMBERLAIN'S COUGH REMEDY.

About 2 months ago our baby girl had measles which settled on her lungs and at last resulted in a severe attack of bronchitis. We had 2 doctors but no relief was obtained. Everybody thot she would die. I went to 8 different stores to find a certain remedy which had been recommended to me and failed to get it, when one of the storekeepers insisted that I try Chamberlain's Cough Remedy. I did so and our baby is alive and well today.—Geo. W. SPENCE, Holly Springs, N. C. For sale by Brewer Drug Co.

The Publisher's Claims Sustained

UNITED STATES COURT OF CLAIMS

The Publishers of Webster's International Dictionary allege that it "is, in fact, the popular Unabridged thoroughly re-edited in every detail, and vastly enriched in every part, with the purpose of adapting it to meet the larger and severer requirements of another generation."

We are of the opinion that this allegation most clearly and accurately describes the work that has been accomplished and the result that has been reached. The Dictionary, as it now stands, has been thoroughly re-edited in every detail, has been corrected in every part, and is admirably adapted to meet the larger and severer requirements of a generation which demands more of popular philological knowledge than any generation that the world has ever contained.

It is perhaps needless to add that we refer to the dictionary in our judicial work as of the highest authority in accuracy of definition; and that in the future as in the past it will be the source of constant reference.
