

**"The Blood is The Life."**

Science has never gone beyond the above simple statement of scripture. But it has illuminated that statement and given it a meaning ever broadening with the increasing breadth of knowledge. When the blood is "bad" or impure it is not alone the body which suffers through disease. The brain is also clouded, the mind and judgement are affected, and many an evil deed or impure thought can be directly traced to the impurity of the blood. Foul, impure blood can be made pure by the use of Dr. Pierce's Golden Medical Discovery. It purifies and enriches the blood thereby curing, pimples, blotches, eruptions and other cutaneous affections, as eczema, tetter, or salt-rheum, hives and other manifestations of impure blood.

In the cure of scrofulous swellings, enlarged glands, open eating ulcers, or old sores, the "Golden Medical Discovery" has performed the most marvelous cures. In cases of old sores, or open eating ulcers, it is well to apply to the open sores Dr. Pierce's All-Healing Salve, which possesses wonderful healing potency when used as an application to the sores in conjunction with the use of "Golden Medical Discovery" as a blood cleansing constitutional treatment. If your druggist don't happen to have the "All-Healing Salve" in stock, you can easily procure it by inclosing fifty-four cents in postage stamps to Dr. R. V. Pierce, 663 Main St., Buffalo, N. Y., and it will come to you by return post. Most druggists keep it as well as the "Golden Medical Discovery."

You can't afford to accept any medicine of unknown composition as a substitute for "Golden Medical Discovery," which is a medicine of known composition, having a complete list of ingredients in plain English on its bottle-wrapper, the same being attested as correct under oath. Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels.

**CHAMBERLAIN'S COUGH REMEDY A SAFE MEDICINE FOR CHILDREN.**

In buying a cough medicine for children, never be afraid to buy Chamberlain's Cough Remedy. There is no danger from it, and relief is always sure to follow. It is intended especially for coughs, colds, croup and whooping cough, and there is no better medicine in the world for these diseases. It is not only a certain cure for croup, but, when given as soon as the croupy cough appears, will prevent the attack. Whooping cough is not dangerous when this remedy is given as directed. It contains no opium or other harmful drugs, and may be given as confidently to a baby as to an adult. For sale by Brewer Drug Co.

"You know," said a "smart" young man to a girl, "some one has said that if you would make a lasting pair of boots take for the sole the tongue of a woman."

"Yes," replied the girl, "and for the appers you ought to take the cheek of the man who said it."

It depends upon the pill you take. DeWitt's Little Early Risers are the best pills known for constipation and sick headache. Sold by Brewer Drug Co.

**IT DOES THE BUSINESS.**  
Mr E. E. Chamberlain, of Clinton, Maine, says of Bucklen's Arnica Salve, "It does the business; I have used it for piles and it cured them. Used it for chapped hands and it cured them. Applied it to an old sore and it healed it without leaving a scar behind." 25c at Brewer's drug store.

**The Persian Language.**  
Persian is said to be not a very difficult language. The modern Persian is very much like the English in its sensible rejection of the inflections that burden so many of the world's tongues. There is no difference of termination to mark the gender either in nouns or adjectives, and all inanimate things are neuter. In other ways the Persian language conforms to the English.

It is very important and in fact it is absolutely necessary to health that we give relief to the stomach promptly at the first sign of trouble—whice are belching of gas, nausea, sour stomach, headache, irritability and nervousness. These are warnings that the stomach has been mistreated; it is doing too much work and it is demanding help from you. Take something once in a while; especially after meals; something like Kodol for Dyspepsia and Indigestion. It will enable your stomach to do its work properly. Sold by Brewer Drug Co.

**Why She Apologized.**

The throat specialist exhibited his laryngoscope to a nervous woman patient and remarked: "You would be surprised to know how far down we can see with this instrument."

And then, as he was about to place the laryngoscope in her throat, she apologized for having a hole in her stocking.

Kodol for dyspepsia and indigestion is the result of a scientific combination of natural digestants with vegetable acids and contains the same juices found in a healthy stomach. It is the best remedy known today for dyspepsia, indigestion and all troubles arising from a disordered stomach. Take Kodol today. It is pleasant, prompt and thoro. Sold by Brewer Drug Co.

**Physical Impossibility.**

A teacher in one of the country schools had a class of young children in mathematics before her. The examples were in addition and she propounded this question: "Now children, if I lay four eggs on the desk, and Sam," pointing to a freckle faced boy at the head of the class, "should lay three, how many would there be?" The bad boy at the foot of the class, had been listening intently, and shouted out, "Go on Sam, take her up. She can't do it."

**RANK FOOLISHNESS.**

"When attacked by a cough or a cold, or when your throat is sore, it is rank foolishness to take any other medicine than Dr. King's New Discovery," says C. O. Eldridge, of Empire, Ga. "I have used New Discovery seven years and I know it is the best remedy on earth for coughs and colds, croup, and all throat and lung troubles. My children are subject to croup, but New Discovery quickly cures every attack." Known the world as the King of throat and lung remedies. Sold under guarantee at Brewer's drug store. 50c and \$1.00. **Curing the Tongue Twister.**

When a young horse persists in getting his tongue over the bit take a piece of sole leather seven inches long, cut it diamond shape so the center will be two and a half inches wide, have the saddle stitch it tight around a common bar bit, with points of leather extending up over the tongue, and you will not be troubled long about the horse getting his tongue over the bit. It is impossible to buckle a bit high enough in a horse's month to prevent this habit when once formed, for I think that is all it is.—M. D. Brantner in Breeder's Gazette, Chicago.

If a cough once gets into your system it acts on every muscle and fibre of the body and makes you ache all over. It especially affects the intestines and makes you constipated, so in order to get rid of a cold thoro and without delay you should not take anything that will tend to constipate. Kennedy's Laxative Cough Syrup acts upon the bowels and thereby drives the cold out of the system. It contains no opiates—it is pleasant to take and is highly recommended for children. Sold by Brewer Drug Co.

**Youth In Its Golden Prime.**

A calf under a year old took the championship in the individual steer class at the last international live stock show. A few years ago only the steer of age and weight would have figured among the possibilities in such a contest. "Baby beef" has become a familiar phrase. The "light hog" has pushed its way to the front. "Hothouse lamb" is no longer a great rarity.

This rising feeling for the things of youth, the striking off into a new path in animal production, may at first appear just a turn of the wheel of change, but behind the seeming fancy of the producers is solid reason: With the breaking up of the ranges the small farmers are tackling the meat producing proposition with vigor in the east and south as well as the west, and in all lines it appears to be proved that the gains in weight are made at the least expense on the young animal.

Scotch fashions, too, are now popular in beef circles, and justly, for the Scotch farmers are notable feeders of animals for beef. From the standpoint of quality and flavor Scotch fed beef holds a leading position in the most critical meat markets of the world. Scotch breeders of beef cattle encourage young stock to develop early maturing qualities, particularly in Aberdeen-Angus and Shorthorn districts. As these breeds are bred almost entirely for beef production the tendency to take on flesh rapidly and mature at an early age is regarded as the most important point to be considered.

**Champion Young Angus.**  
The cut, original in the Breeder's Gazette, Chicago, shows the champion yearling steer Andy, an Aberdeen-Angus, exhibited by the Minnesota college at the last international live stock show. Concerning the display of the Aberdeen-Angus at that time the Ga-

CHAMPION YEARLING STEER.

zette remarked that, whether the long line of two-year-olds is considered or the yearlings or the rare lot of calves, there was a fleshiness apparent in all, a maximum of beef and a minimum of waste, that presented ready explanation of the favor in which the breed finds itself among the buyers for slaughter.

**Best Breed For Baby Beef.**

Why do we breed Aberdeen-Angus cattle? A firm of Delaware breeders have explained their reasons for so doing as follows in Rural New Yorker: We first began cattle breeding with registered Holsteins, but at the same time we put in the pasture one Angus bull and heifer and through the grass season gave no grain or feed of any kind. When we took them in for winter our Holsteins were thin and poor, while the two Angus were fat and in fine shape for beef. We did not desire to go in the dairy business, as the extra work would interfere with our other

work, but we did desire to keep cattle, for we must have manure to improve the soil. We found we could keep about two Angus to one Holstein on the same acreage and have them in good beef shape almost any time in the year. We decided this was the breed we needed, disposed of our Holsteins and settled down on the Aberdeen-Angus, the best breed of baby beef cattle in the world, we believe. We are breeding them for stock to sell for breeding purposes to be used either in pure bred herds or for grading up to a high standard the common cattle. We also find many dairymen who sell their calves for veal consider it profitable to use an Angus bull, as it will add about \$5 profit on every veal calf at eight weeks old, no matter how small or common the cow. The smallest Jersey cow will bring a calf worth \$5 more if sired by an Angus bull.

**A Live Stock Center.**

It is rumored that an attempt will be made to make Worcester, Mass., a center for the sale of New England cattle. According to New England Homestead, C. W. Wood, a large cattle breeder, says there are today within a radius of fifty miles of Worcester fully 1,500 head of Holstein cattle, and he would favor Worcester as a central dealing point for breeders. J. B. Marcon, an extensive breeder, is quoted to the effect that Worcester is the best place to hold live stock sales in New England, where something of this character is sadly needed as an impetus in improving live stock. Many of the farmers are too poor to buy the best in competition with the wealthy farmers of central New York and the middle west.
