

The Badge of Honesty

Is on every wrapper of Doctor Pierce's Golden Medical Discovery because a full list of the ingredients composing it is printed there in plain English. Forty years of experience has proven its superior worth as a blood purifier and invigorating tonic for the cure of stomach disorders and all liver ills. It builds up the run-down system as no other tonic can in which alcohol is used. The active medicinal principles of native roots such as Golden Seal and Queen's root, Stone and Mandrake root, Bloodroot and Black Cherrybark are extracted and preserved by the use of chemically pure, triple-refined glycerine. Send to Dr. R. V. Pierce at Buffalo, N. Y. for free booklet which quotes extracts from well-recognized medical authorities such as Drs. Bartholow, King, Scudder, Ellingwood and a host of others, showing that these roots can be depended upon for their curative action in all weak states of the stomach, accompanied by indigestion or dyspepsia, as well as in all bilious or liver complaints and in all wasting diseases where there is loss of flesh and gradual running down of the strength and system.

The "Golden Medical Discovery" makes rich, pure blood and so invigorates and regulates the stomach, liver and bowels, and through them, the whole system. Thus all skin affections, blotches, pimples and eruptions as well as scrofulous swellings and old open running sores or ulcers are cured and healed. In treating old running sores, or ulcers, it is well to insure their healing by applying to them Dr. Pierce's All-Healing Salve. If your druggist don't happen to have this Salve in stock, send fifty-four cents in postage stamps to Dr. R. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y., and a large box of the "All-Healing Salve" will reach you by return post.

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic, medicine of known composition, not even though the urgent dealer may thereby make a little larger profit. Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules, easy to take as candy.

- \$1.00 a year. Send 10 cents for Sample Copy
- CORRECT ENGLISH. Evanston, Ill.

The Secret of a Beautiful Face lies in keeping the skin protected as well as cleansed. Just washing is not enough—that only leaves the delicate surface more exposed to the irritation of dust and germs; to merciless attacks of sun and weather. After washing, apply Robertine and experience its delightful refreshment. You will admire the lineless softness it imparts to face, neck and arms. It not only stimulates a radiant glow, but protects the skin from becoming coarse. Prevents burning, tan and freckles.

Ask your Druggist for a free sample and—TRY ROBERTINE

KILL THE COUGH AND CURE THE LUNGS

WITH **Dr. King's New Discovery**

FOR COUGHS AND COLDS AND ALL THROAT AND LUNG TROUBLES.

PRICE 50c & \$1.00. Trial Bottle Free

GUARANTEED SATISFACTORY OR MONEY REFUNDED.

TROUGH FEEDING.

A Poultry Writer Mentions Some Drawbacks to the Plan.

There are domineering hens in every flock of fowls, and these keep the timid ones in fear and subjection to a greater or lesser extent, says the Agricultural Epitomist.

When food is given in a trough where the hens can eat their fill the domineering ones keep some of the others back and often eat twice as much as their share, while the less fortunate ones do not get enough to satisfy either their desires or their needs.

The best way out of this difficulty is not to use troughs at all, but to scatter the grains in some sort of a litter and compel every hen to scratch and hunt for her share, thus giving them all an equal chance. It is better to feed in litter that the hens may be compelled to take time to pick up their food rather than stuff their crops entirely full in just a few minutes, as they will then digest a much larger proportion of the food consumed, and the good exercise they thus secure will serve to keep them in a good healthy condition, and they will therefore be less liable to disease.

Troughs or their equivalent are necessary, however, where soft food is fed. But to avoid monopoly by a few it is better to have several small troughs placed at different points than to have only one large trough and put all the feed in this.

Plucking Geese.

It is not wise to pluck geese intended as breeders. A goose that is plucked two or three times a year will not lay as many eggs, as fertile eggs nor as early as a goose that is allowed to go through her molt naturally. If the goose is to raise her goslings they will suffer for lack of her downy feathers if she is plucked before they are old enough to get along without brooding. If the goslings have been brought out early the geese may be plucked during May and June. In plucking tie the tips of the wing feathers together instead of crossing the wings on the back, as is often done. At the best plucking a goose is very unpleasant for the goose, and the work should be done as humanely as possible. While feeding a plentiful supply of gravel should be given in a trough of water.

Do Bone Cutters Pay?

One pound of cut bone for a dozen hens once a day, which should not cost over a cent a pound, will produce more eggs than five times as much grain, because the cut bone is complete in egg making substances, while the grain is largely deficient in many respects, says the Mirror and Farmer. Some persons affirm that it does not pay, to procure a bone cutter for small flocks. That is a mistake. Bone cutters are now cheaper than many ordinary garden tools and are strong, durable and efficient. The cost of the bone cutter is soon regained in the increased number of eggs laid.

Ducks on the Farm.

The notion is still prevalent that ducks cannot be raised well without free access to water. This has been repeatedly shown to be erroneous so far as the improved sorts are concerned. Many of the largest breeders have only wells, and the water supplied for drinking purposes is all they receive. Yet just as many birds are raised, the only perceptible difference being that the water birds have a little finer plumage. But the difference is lost sight of when the birds are plucked for market.

The Frizzle Fowl.

These birds derive their name from the peculiar manner in which their feathers curve upward and backward at the ends as if in defiance of nature's laws, the curving being most conspicuous in the hackle and saddle feathers. There is no set color of plumage, though it should be a solid color, and the birds should match in color when exhibited in pairs, trios and pens. The colors met are black, white, red and bay. The size also varies, but they are mostly medium sized fowls.

Leg Weakness In Ducks.

Leg weakness in ducks when not due to cold, damp quarters is usually the result of an insufficient supply of green food. Ducks should be plentifully supplied with green stuff. When fresh cut rye, corn fodder, grass and clover cannot be had, they should have ensilage, cut clover hay or alfalfa. Do not grain them too heavily. Give green food freely or get them out on a grass range.

Size of a Hen's Egg.

Has the average size of the ordinary hen's egg ever been mathematically computed? Yes. Great egg packers employ men who from dawn to dark do nothing but pass eggs, one after another, before a candle to insure only fresh ones being received. Measurements have been conducted by these, and experiments based on perhaps a thousand eggs show the average length of a hen's eggs to be 2.27 inches and the average diameter at the broad end 1.72 inches, while the average weight is about one-eighth of a pound.—Montreal Star.

THE KING OF CURES

DR. KING'S NEW DISCOVERY

FOR COUGHS AND COLDS AND ALL THROAT AND LUNG DISEASES PREVENTS PNEUMONIA AND CONSUMPTION

"Two years ago a severe cold settled on my lungs and so completely prostrated me that I was unable to work and scarcely able to stand. I then was advised to try Dr. King's New Discovery, and after using one bottle I went back to work, as well as I ever was."
W. J. ATKINS, Banner Springs, Tenn.

PRICE 50c AND \$1.00

SOLD AND GUARANTEED BY BREWER DRUG COMPANY

BAD STOMACH TROUBLE CURED.

Having been sick for the past two years with a bad stomach trouble, a friend gave me a dose of Chamberlain's Stomach and Liver Tablets. They did me so much good that I bought a bottle of them and have used twelve bottles in all. Today I am well of a bad stomach trouble.—Mrs. John Lowe, Cooper, Maine. These tablets are for sale by all druggists.

Bandon business men have subscribed to hire an extra nightwatchman.

The trouble with most cough remedies is that they constipate. Kennedy's Laxative Cough Syrup acts gently but promptly on the bowels and at the same time it stops the cough by soothing the throat and lung irritation. Children like it. Sold by Stayton Pharmacy.

Canby is going to put on airs with a military company.

KEEPING OPEN HOUSE.

Everybody is welcome when we feel good; and we feel that way only when our digestive organs are working properly. Dr. King's New Life Pills regulate the action of the stomach, liver and bowels so perfectly one can't help feeling good when he uses those pills. 25c at Brewer Drug Co's store.

"The Dalles is to be made over," says Senator Wheelton.

NEGLECTED COLDS THREATEN LIFE.

[From the Chicago Tribune.]
"Don't trifle with a cold," is good advice for prudent men and women. It may be vital in the case of a child. Proper food, good ventilation, and dry warm clothing are the proper safeguards against colds. If they are maintained through the changeable weather of autumn, winter and spring, the chances of a surprise from ordinary colds will be slight. But the ordinary light cold will become severe if neglected, and a well established ripe cold is to the germs of diphtheria what honey is to the bee. The greatest menace to child life at this season of the year is the neglected cold. Whether it is a child or adult, the cold slight or severe, the very best treatment that can be adopted is to give Chamberlain's Cough Remedy. It is safe and sure. The great popularity and immense sale of this preparation has been attained by its remarkable cures of this ailment. A cold never results in pneumonia when it is given. For sale by all druggists.

About 500,000 bushels of wheat were shipped from Lexington.

CHAMBERLAIN'S COUGH REMEDY A FAVORITE.

"We prefer Chamberlain's Cough Remedy to any other for our children," says Mr. L. J. Woodbury of Twining, Mich. "It has also done the work for us in hard colds and croup, and we take pleasure in recommending it." For sale by all druggists.

FRIEND TO FRIEND.

The personal recommendations of people who have been cured of coughs and colds by Chamberlain's Cough Remedy have done more than all else to make it a staple article of trade and commerce over a large part of the civilized world.

AN INSTANCE.

Lucy Suddreth, of Lenoir, N. C., had been troubled with a very bad cough for over a year. She says: "A friend bought a bottle of CHAMBERLAIN'S COUGH REMEDY, brought it to me and insisted that I should take it. I did so and to my surprise it helped me. Four bottles of it cured me of my cough."

FOR SALE BY BREWER DRUG CO.

Dodging His Friends.

The following advertisement recently appeared in one of the English colonial newspapers:
"James Saveall begs to notify that he has started business on his own account as an up to date restaurant and hopes that his many friends will jolly well stop away and give him a chance."

Cheap Jag.

"He was intoxicated with her beauty."
"That must have just suited him."
"Yes; it didn't cost any money."—Pittsburg Press.

Helpless.

Ella—What a helpless girl she is! Stella—Yes. If somebody should provide the mistletoe and furnish the man she couldn't do the rest.—Canadian Courier.
