

COMMON SENSE

Leads most intelligent people to use only medicines of known composition. Therefore it is that Dr. Pierce's medicines, the makers of which print every ingredient entering into them upon the bottle wrappers and attest its correctness under oath, are daily proving in favor. The composition of Dr. Pierce's medicines is open to everybody. Dr. Pierce being desirous of having the search light of investigation turned fully upon his formula, being confident that the better the composition of these medicines is known the more will their great curative merits be recognized. Being wholly made of the active medicinal principles extracted from native forest roots, by exact processes original with Dr. Pierce, and without the use of a drop of alcohol, triple-refined and chemically pure glycerine being used instead in extracting and preserving the curative virtues residing in the roots employed, these medicines are entirely free from the objection of doing harm by creating an appetite for either alcoholic beverages or habit-forming drugs. Examine the formula on their bottle wrappers—the same as sworn to by Dr. Pierce, and you will find that his "Golden Medical Discovery," the great, blood-purifier, stomach tonic and bowel regulator—the medicine which, while not recommended to cure consumption in its advanced stages (no medicine will do that) yet does cure all those catarrhal conditions of head and throat, weak stomach, torpid liver and bronchial troubles, weak lungs and hang-on-coughs, which, if neglected or badly treated lead up to and finally terminate in consumption.

Take the "Golden Medical Discovery" in time and it is not likely to disappoint you if only you give it a thorough and fair trial. Don't expect miracles. It won't do supernatural things. You must exercise your patience and persevere in its use for a reasonable length of time to get its full benefits. The ingredients of which Dr. Pierce's medicines are composed have the unqualified endorsement of scores of medical leaders—better than any amount of lay, or non-professional, testimonials. They are not given away to be experimented with but are sold by all dealers in medicines at reasonable prices.

The Secret of a
Beautiful Face
lies in keeping the skin protected as well as cleansed. Just washing is not enough—that only leaves the delicate surface more exposed to the irritation of dust and germs; to merciless attacks of sun and weather. After washing, apply Robertine and experience its delightful refreshment. You will admire the line-less softness it imparts to face, neck and arms. It not only stimulates a radiant glow, but protects the skin from becoming coarse. Prevents burning, tan and freckles.

Seized Her Opportunity.

He was not a very rapid wooer, and she was getting a bit anxious. Again he called, and they sat together in the parlor, "just those two." A loud rap came at the front door. "Oh, bother!" she said. "Who can be calling?" "Say you're out," said the deceiver. "Oh, no; that would be untrue," murmured the ingenuous one. "Then say you're engaged," he urged. "Oh, may I, Charlie?" she cried as she threw herself in his arms. And the man kept on knocking at the front door.—Illustrated Bits.

Protein and Its Sources.

Protein is the nitrogenous part of feeds and is by far the most valuable of the different groups of nutrients. Its characteristic element is nitrogen. The white of egg is almost pure protein. Cottonseed meal and linseed meal are very rich in protein, and so are leguminous hays, such as clover, alfalfa and cowpea hay.—John Michels.

Easily Stated.

A committee having in charge a local entertainment went to a noted editor to request him to take part in it. "What do you want me to do, gentlemen?" he asked. "We would like to have you give us a talk on spelling reform," they replied. "Well," he rejoined, "I can give you my idea of spelling reform in one sentence. Just leave 'me' off the 'programme'."

A Curious Tree.

In the village of Clynog, Wales, there is an old cottage, formerly a country tavern, upon the roof of which there is a full grown sycamore tree. About fifty years ago a seedling from a neighboring churchyard, where other sycamores are growing, found a resting place in the corner of the wall above a slab of stone over the entrance to the building. The young tree thrived for a time on the small quantity of soil collected in the corner of the walls and finally forced its roots downward through the walls into the earth below. From the outside no trace of the roots can be seen.

Cutting Big Diamonds.

Big diamonds lose a great deal in the cutting. The Kohinoor was reduced by an unskillful stonecutter from 793 1/2 carats to 280 carats, a second cutting brought it down to 186 1-10 carats and a third to 106 1-10 carats, or less than a seventh of its original size. The original weight of the Pitt or Regent diamond was 410 carats, but in the hands of the cutter two-thirds disappeared, while the Star of the South, which was picked up in a river by a negress, lost a little over half its weight by cutting.

The Poet's Son.

"Why, Freddy, how dirty you are, and only yesterday you wrote a verse for papa's birthday, promising always to wash your hands clean." "Well, mamma, that was only a poetic license."—Fleegende Blatter

Asserting Himself.

He—Will you be my wife? She—The dear! Don't be ridiculous. He—Yes, I know it sounds ridiculous; but, then, I'm not so particular as some men are.—Boston Transcript.

Nothing is impossible to the man who can and will.—M'Inchey.

Pay of Army Officers.

When a young man becomes a cadet at West Point, he enters upon a government allowance of \$600.50 a year.

On graduation the West Pointer is commissioned a second lieutenant and receives a salary of \$1,400 if unmounted or \$1,500 if mounted. Increases at each five year period bring the pay at the end of twenty years up to \$1,900 in the one case and \$2,100 in the other.

The pay of first lieutenants begins at \$1,500 and \$1,600; captains, \$1,800 and \$2,000; majors, \$2,500; lieutenant colonels, \$3,000; colonels, \$3,500. Each officer attains a 40 per cent maximum increase in twenty years.

On the average the salary of the army officer is higher than that of the college professor, the minister or the graded civil service employee. The officer has allowances for residence and personal attendance. He may buy household supplies from a government commissary at cost.—Detroit News-Tribune.
