Crops along the Turner-Stayton roads are in good condition but the nearer Stayton you get the better the yield owing to the natural subirrigation and the proximity of timber.

Several fishing parties went up the Santiam recently but report small catches there seems to be something lacking this year in the ability of the anglers to induce the finnies to bite.

Not an empty house in Stayton, what will be the condition when school opens. More houses will be built. Put in your order at once, the weather for building will not last always.

Mrs. J. H. Davidson left recently for Scio and Brownsville where she will visit relatives and friends before she joins her husband who is now in California. The Davidsons leave many friends behind, but they will make new ones wherever they locate.

PHOTOGRAPHERS GONE.

The young men who made a short visit in this vicinity were well patronized but they wished to see more territory during the summer and have moved on. They were indeed artists in their line and the work completed by them stands as an exhibit of their skill.

Among the several scenes taken are a few of the town that could be used to a good advantage upon advertising posters and perhaps the proper arrangements can be made by which the the stationary used by our townspeople might bear the pictures best adapted to the party using the stationary.

There is no way by which any article can be as successfully advertised as through the eye and a cut of a building, a picture of a fine horse or a farm scene on private or business stationary, as the case may be, is the proper method of awakening interest in our section.
