

Stayton Mail

Entered at the post office at Stayton, Oregon, as mail matter of the second class.

THE MAIL is strictly non-partisan but devoted to the general interests and up-building of southeastern Marion county and Stayton in particular. The Mail desires the hearty cooperation of every community into which it is sent regularly to subscribers, but all subscriptions must be paid for during the year according to the following ruling:

By an order of the Postmaster General of the United States, issued Dec 4, 1907, no weekly newspaper can be mailed to any subscriber at the regular second-class rates, when such subscriber is more than one year in arrears. This order took effect January 1, 1908.

The penalty for violating the order is exclusion from the mails. This forces THE MAIL and all other papers to insist that subscriptions be paid during the year.

		word per issue

These rates apply to copy as well as local advertising and will be strictly adhered to. All communications sent in for publication must bear the signature of the writer. This rule applies to either local, general, political, church, or other items.

FRED G. CONLEY, EDITOR.

Box 98 Stayton, Oregon.

XMAS TREE FOR ALL.

There is a movement on foot with the object in view of giving a splendid Xmas tree in the Opera House for all the little folks and big folks of Stayton and vicinity. The plans are nearly completed and we are authorized to announce that the tree will be a grand success.

Such an enterprising community is rarely found than ours. What we mean by ours is the field through which the MAIL circulates. There is not a week passes that there is not something good accomplished. Every section is adding their assistance and withal we have the best communities in the state. We desire to commend our residents for their enterprising spirit.

We hope that upon the Xmas tree we will be able to find a correspondent from every section which is not now represented. We feel that our patrons have been exceedingly thoughtful of our welfare but we are still waiting to have a few more localities represented. When we cover the entire field with our semi-weekly every week will seem like Christmas with a bag full of news.

Last Sunday Rev. Carman had the privilege of celebrating his sixty

birthday. The event was made enjoyable and long to be remembered as the members of the Baptist church (or at least some of them) had decorated the pulpit and its surroundings with chrysanthemums and the beautiful white flowers suggested not only a welcome but thoughts of purity and heaven. Arrangements had also been made for a good choir, violin duet, etc., and not content with this the good people presented the pastor with a fine hat, shoes, socks, rubbers etc. For these expressions of regard the recipient desires to express his heartfelt thanks and appreciation. A good and attentive audience also greeted him in the morning and notwithstanding the storm in the evening many came to listen to a sermon on "The True Measure of Life."

Our Show Windows.

Do the citizens ever stop to think just how much they are indebted to the progressive merchant who presents attractive window displays. Do they ever stop to think just what a trip to the business section of the city would be if it were not for the artistic efforts of the merchants? This is one of the things that makes the difference between the slow, peky town and the lively, wide-awake city—the business

may see the things that are attractive, pleasing to the eye, diverting to the mind. It takes no little time and studied effort, as well as an outlay of money, to make attractive window displays and that the merchants of this city have the disposition and capacity to attain the splendid results they do is indeed highly commendable. It is respectfully suggested here that it is but fitting that admirers of these window displays should occasionally mention to the merchant their appreciation of some particular effort. This will prove an encouragement and an incentive to continued effort along this line. Those few business men who make little effort to present attractive windows are not living up to their opportunity.—Corvallis Times.

65 Head Beef Stock.

Frank Smith, who has charge of the purchasing of stock for Stueslof Bros. of Salem, was in town a few days ago with a bunch of 65 head of choice beef. He gathered them across the river from G F Harold, Fone Wray, Albert Wray, M S Titus of Kingston and vicinity and Newt Thomas of Jordan Valley.

Good Times Again At Jefferson.

Marshal Newman and several others were in attendance on the evening of the masquerade skate in Jefferson, where they participated in the contest where twenty-five dollars was given in prizes. The floor is 50 x 100 feet and affords ample room for the young people who gather upon it to enjoy good times again. There has at several times been over 150 people on the floor at a time.

There was a most enjoyable masquerade skate held in Albany on the 25th which was attended by quite a number from Stayton. Among those present in Jefferson were Marshal Newman, Forest Mack from Stayton and Messrs Young, Parrish and others also the Misses Curl, Blunt, Baltimore and others from Albany.

A L MACK INJURED.

On Friday last while driving a spirited mare past the little red mill, west of town, A L Mack met with what might have been a very serious accident.

The mare became frightened at something and began plunging sideways and other wise. These actions resulted in the breaking of both shafts in the sulkey at the cross-tree. As soon as they gave way Mack was thrown heavily forward striking the furious animals heels with the right side of his head. The animal at this time cleared itself from the rig and dashed frantically toward a wire fence which enclosed Mr Spaniol's chickens. The mare was

in her attempt to vault the second one she caught her shoe in the top wire which threw her to the ground. By this time Mr Spaniol was on the scene, grabbed the fallen animal by the head and held her down until the harness had been adjusted and the frightened animal calmed. It is hard to imagine how Mr Mack came out of the mix up with as few injuries

The stock have fared well this fall on outside range but the farmers are now disposing of their surplus while the remainder are taken up for feeding. Very few cattle have been left out this winter. The ranchers are raising better grades therefore are giving their herds better care than formerly. They are fully repaid for doing so in the better prices received

ENJOYABLE EVENING.

(Overlooked Last Week.) Last Friday evening was one that will be remembered by quite a number of our citizens who were the guests of Mr & Mrs George Lentz. The evening was nicely divided with a bountiful repast and following it came story telling, singing and a general good time for all.

Among those present were: W H Cooper and daughter, Miss Lizzie Cornelius, Ephraim Shepherd, Dr W N Fintler, Miss Shepard, J M Ringo W L Freres, Mr & Mrs Gist, Mr J Jackson R Hamel, Mrs J R Gardner Mrs Grier, Claire Smerlia, the editor and family as well as others whose names we did not learn.

The host and hostess were not in the least lacking in making all present enjoy themselves. We hope to have several like events in our midst during the winter.

OREGON APPLES.

From the exhibits in connection with the meeting of the Northwest Fruit Growers Association and the Oregon State Horticultural Society a most effective and unusual advertisement of the fruits of the Pacific Northwest has been evolved. The twenty choicest boxes of prize-winning apples have been purchased by the Portland Commercial Club, and after display in the windows of Macy's famous store in New York City for a week, ten boxes will be sent to King Edward of England and the remaining ten to the Kaiser Wilhelm

A Master Stroke of Typewriter Invention.

New Oliver Automatic Tabulator, a Twin Improvement to the Oliver Ruling Device. Just a simple clean-out mechanism for tabulating—operated by a single key. Yet that single key unlocks scores of doors to added typewriter convenience. It does away with the brain-tension of tabulating. The movements of carriage are controlled by unseen fingers. The tabulator works automatically with unvarying accuracy.

Equipped with its new Automatic Tabulator, which can be operated in connection with the Oliver Line Ruling Device, the Oliver's sphere of usefulness is unlimited.

In the work of writing and ruling Statistical Reports, Invoice Statements, Inventories, etc.—Listing Checks, Deposit Slips, Cash Items, Vouchers, Cash and Credit Sales, Trial Balances, Pay Rolls, Cost Records, and scores of similar tabulated records, Oliver No 5 has no equal. It is the only machine that covers the whole broad field of modern commercial uses in a satisfactory way.

The Oliver Automatic Tabulator is an integral part of every new machine—furnished without a cent additional charge. It caps the climax of a long series of improvements given to the world in the magnificent new Oliver No 5.

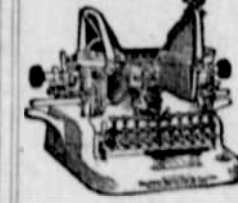

Each of these remarkable innovations—the Oliver Tabulator and the Oliver Ruling Device—supplements the other. Together they form a combination of untold value in all branches of commercial accounting.

The Oliver Typewriter is first of all a correspondence machine—supreme in splendid service. It makes work a pleasure by providing automatic means of spacing, tabulating, ruling, indicating exact printing point, securing proper register, etc.

The saving of time, of mental calculation of manipulation, of extra attention and of eye strain is an incalculable benefit to the operator.

And the gain in volume of work well done—without extra operative effort—means much to every employer.

Write for the new Oliver Catalog—or better still—ask the nearest Oliver Agent for a free demonstration of Model No. 5. The Oliver Typewriter Co. 1225 First Avenue, Seattle, Washington.

Pride is Universal

Our PRIDE UNIVERSAL STEEL RANGE is our leader in ranges. They are made in different sizes but have all necessary requirements to suit the most exacting cook or housewife.

White Porcelain Lined Oven Door, easy to keep clean and practically indestructible.

Spring Balanced Drop Oven Door, when open rests on cast lugs projecting from door hinges, making same a very substantial oven shelf.

Key Plate Top with heavy covers and centers, will not warp or firecrack and will outlast the bolted top as used in other ranges.

Main Top is made in four sections, securely bolted together, allows for expansion and contraction and is away from the direct action of the fire.

Patent Adjustable Sliding Oven Damper always works easily and gives perfect control of the heat in the oven.

Fire Box is fitted with extra heavy sectional cast linings, thoroughly ventilated to guarantee its lasting qualities.

Duplex Grate when reversed forms a perfect wood burning grate and can be removed through front of range without disturbing the fire box linings.

Large Ash Pit Section allows a free circulation under grate.

The Oven Top and Flues are extra wide and deep, allowing a free circulation of heat and assuring a uniform heat throughout the oven; also all of the six lids receive the benefit of all heat direct from the fire box.

Extension Fire Box for Wood. Large Bailed Ash Pan.

Pouch Feed Door with check slide damper. Cast Iron Reservoir Casing fitted with large white enameled reservoir.

The Nickel Trimmings are artistically designed, prepared and plated by a special process giving them a brilliancy found only on Universal Stoves and Ranges.
