STAYTON MAIL INSTALLS FAST JOB PRESS AND OTHER MODERN MATERIAL

Stayton's Only Newspaper Now in Better Shape Than Ever Before to Handle Everything in Job Printing.

If the Stayton Mail does not have the best printing office and the most prosperous printing business in this section of the Willamette Valley it will

not be the fault of the owner and publisher of the paper.

The publisher spent Saturday last in Portland, investigating the merits of various kinds of presses and material. He finally selected a new Chandler & Price job press and a quantity of the most modern and handsome type and material on the market.

The press and material are already here and will be ready for use within two or three days.

With the addition of this new material

The Mail will have an excellent equipment for all kinds of job work. More will be added as the demands of the business require it. The job department is always an important

source of revenue in a country newspaper office and The Mail is making a bid for job printing by putting its shop in shape to do the work in a creditable manner. The Chandler & Price press is the best on the market. It has a maximum speed of over 3,000 per hour and so perfectly it made that it runs almost noiselessly. Let us talk with you about your next bill of job printing.

The ice cream social and band concert given Saturday night at the Masonic grove by the Ladies Improvement Club was a complete success. The gross receipts were \$35.00 and the affair will net the library fund about \$15 to \$18, after dividing the profits with the band. Already there are a few far-sighted persons in Stayton who are looking forward to the day when the city will have a public library worthy the name and a building especially constructed for library purposes.

Albert Kenworthy Thrown Out Near Chas. Brown Residence and Severely Injured.—Physician States He Will Recover.

Albert Kenworthy of West Stayton, one of the substantial and well known farmers of this part of the county, was seriously injured Wednesday afternoon when his team ran away in this city.

The horses became frightened at something on Third street, coming into town, turned the corner at Ringo's undertaking establishment and ran west. Reaching the Charles Brown corner the wagon struck a rough spot and the driver was thrown out, landing heavily on his head and shoulders. He was carried into the Brown residence and help summoned. None of the physicians was in his office but Dr. Thompson was out making some city calls and finally was located. In the meantime Joe Brewer had gone down in his auto and brought Mr. Kenworthy to the office of Drs. Brewer and Thompson, where Dr. Thompson dressed the injuries. It was found that Mr. Kenworthy had a dislocated right shoulder, fractured shoulder blade, one ear nearly torn off and bad bruise about the head and body.

Former Tacoma Pastor Makes Strong Plea For Prohibition.

Rev. D. Loree, late of Tacoma, Wn., delivered a lecture at the Baptist church Friday night, his subject being "The Saloon a Legalized Outlaw." Mr. Loree is a very pleasing speaker and with an ease which bespoke his ability as a lecturer would raise the audience with laughter and then move them to tears as he drove home the truth of his application.

His lecture was strikingly original and his statements, backed by government statistics, proved his familiarity with his subject in hand and makes him a worthy exponent of the prohibition cause.

HOUSE IS BURNED

Home of Chas. P. McElhaney, Three Miles North of Sublimity, Completely Destroyed Yesterday.

About one o'clock yesterday afternoon the phone at the home of Chas. McElhaney, north of Sublimity, rang. When one of the members of the family answered the call he was told that the house was on fire. Rushing outside the family found the flames rolling out of the roof and the house past saving. They turned their attention to getting the furniture outside and succeeded in getting nearly everything stacked up in the yard. Just as the last article had been carried out a spark dropped into some of the bedding and in a few minutes house and furniture both were wiped out, making a clean sweep.

The property was insured in the Sublimity company and Mr. McElhaney's loss will not be very heavy.

Mr. McElhaney already had commenced the foundation for a new house, so he will not be long without a home.
