POPULARITY OF BASEBALL.

Qualities in the Game That Endear It to the Public.

There must be special qualities in a game that can take and keep such a hold on millions of hard headed, healthy Americans from boys to earnest old men. What are these qualities? Here is an attempt to define them:

First.—Efficiency. No other spectacle shows the human being to such advantage on the side of efficiency. If polo be mentioned to controvert this it certainly cannot compare in the next three advantages to be mentioned, and the inferiority of the circus the astute reader can figure out also from what follows:

Second.—Visibility. A person who understands the game sees almost every play perfectly. He sees the delivery by the pitcher, the preparation and swing of the batter, the ball dashing away, the rush, grasp and recovery of the infielder, the race of the runner down the line, the catch of the baseman and is ready to dispute with the umpire whether the ball arrived a tenth of a second before or a tenth of a second after the runner.

Third.—Sustained suspense. An English student of American affairs, endeavoring to make his countrymen understand the hold of the game, stated that if they would imagine the most intense moment in the fifth set of a tennis match being played for the championship of the world they might get an idea of the intensity of interest that pertains to a ball game at almost any time in any one of the nine innings.

Fourth.—The democratic background. The interest of watching the experts is inseparable from the fact that almost every boy in the United States is brought up to play the game itself. One sometimes hears it said that watching the game is less desirable than playing it, which is creating an absurd dilemma, as the clerk in a great town, who may be able to spend two hours of healthy interest in the baseball park, could not possibly be indulging in the game himself and also because watching the game makes one all the more eager to play it if he has the chance, just as playing it makes him all the more eager to see how it is played by the greatest experts in the world.—Norman Haggood in Metropolitan.
