Eugene has another railroad at last. The Oregon Electric rails reached that city last week.

From Paris comes the announcement that electricity can relieve hunger. It does at Sing Sing.

The state fair should not be held until the crops are all harvested. It always brings a week of rain.

Looks like an open saloon would not cause as much trouble as the "blind pigs" in Albany and Harrisburg.

According to a reliable report there is a man in Michigan who uses his wife's tight skirt for an umbrella cover.

A Seattle dentist pulled his wife's teeth because she talked too much. That might help this high cost of living too.

Medford business men have decided to build a line to the Pacific. Those Medford fellows generally make good too.

During Mr. Bryan's "resting up" period he delivered lectures at \$500 per. We need a rest mighty bad too, at that figure.

Scientists say there are more great men among blondes than among brunettes, but this is no reflection upon Booker T. or John Artha.

A doctor says that he would rather have a robust burglar than a consumptive bishop for a father. Well who the dickens wouldn't?

Scientists say that milking cows is the best finger exercise for a piano player. Yes, and it suits the innocent bystanders better, too.

Senator Burton says the high cost of living is due to extravagance. How about the extravagance of supporting a United States Senate.

Maryland has a blue law that prohibits a drink of lemonade on Sunday. Maryland always was a stickler in opposition to things that degenerate people.

A prominent doctor takes the poison from the bee, dilutes it, and uses the stuff with a hypodermic needle to cure rheumatism. This method will be more popular than letting the bees apply the medicine themselves. They generally give a fellow an overdose.

The town is dull since everybody went to the hop yards.

Several different parties from here are exhibiting produce at the State Fair.

A number of parties have their onions pulled but nobody to help trim them as everybody is at the hop yards. Can you help?

Albert Keithly, who has been running a donkey engine near Mill City, was recently operated upon for an abscess on the leg. He is reported to be doing nicely.

ROBT. C. BISHOP, Mgr.

The Leading Clothing and Furnishing Goods Store in the Willamette Valley.  
Headquarters for "MADE IN OREGON" Fabrics.

## OPENING FALL and WINTER SEASON SATURDAY, AUGUST 31, 1912

To our many friends and patrons, GREETING! Thanking you for the favors you have shown us in the past, we wish to advise you that our Mr. Robt. C. Bishop has recently returned from a ten weeks' purchasing trip in the markets of the East. He neglected nothing that a thorough knowledge of the requirements of a store of this character would suggest. In making his selections for the season's sales, the first two prerequisites were purity of fabrics and high grade tailoring. The largest and best clothing manufacturers were visited, their fabrics tested, their tailoring examined, their labor conditions scrutinized (no sweat shop goods allowed in this store), and selections were made that will give you the best that money can buy. Additional salesmen will be added to our selling staff, and each customer will be assured of first class service.

In addition to our clothing and furnishing goods department, we shall specialize on some lines of goods on a much larger scale. The boys' and children's departments will be much larger and more elaborate than heretofore. As in the past we shall feature

## "OREGON MADE" Blankets

Our alliances with two of the leading woolen mills in Oregon enable us to supply our patrons at about the same price as the ordinary merchant pays for his.

### IN MEN'S SHOES

we have secured the agency for a shoe called the "Just Right Shoe," and have sold over 1000 pairs the past year, with universal satisfaction.

Our Guarantee goes with every pair.

### GLOVES

Dents Gloves are the Top-Notchers.
