Mrs. Marshall is a keen student, and, having established the practice of going with her husband on all his trips, be they short or long, they make it a point to carry along some book.

Mrs. Marshall is as much of a humanitarian as the governor. A glance at some of the bills that have been passed by the 1911 Indiana legislature gives an insight into the governor: To curtail child labor.

To regulate sale of cold storage products.

To require hygienic schoolhouses and medical examination of children. To prevent blindness at birth.

To regulate sale of cocaine and other drugs.

To provide free treatment for hydrophobia.

To establish public playgrounds.

To improve pure food laws. To protect against loan sharks.

To provide police court matrons.

To prevent traffic in white slaves. To permit night schools.

To require medical supplies as part of a train equipment.

While all the country was reading the vigorous words of Governor Marshall which told the voters what he expects Democracy to do in carrying out the pledges for the next four years it's worth while to know what part a woman is taking in the affairs of the campaign-how Tom Marshall happens to be in the position in which he stands today.

The good people of Columbia City, Ind., never thought Thomas Riley Marshall was a "marrying man." For forty years he had lived with his parents, nursing both his father and mother, who were invalids, which was the reason Governor Marshall was not a marrying man. He felt his first duty was to his parents.

Meeting Mrs. Marshall.

After the death of his parents Governor Marshall dived deeper into his law practice, and one day an urgent ense took him to Angola, Ind. His duties called him to the county clerk's offlee, and there he met Miss Lols Kimsey, daughter of the county clerk, who was assisting her father in the office. From that day Governor Marshall had more business around the county clerk's office in Angola than any law-

yer in half a dozen nearby counties. Governor Marshall was forty-two years of age when he was married, Mrs. Marshall being nearly twenty years his junior.

THE TARIFF IN SUMMER DRESS FOR HOT-WEATHER READING

A fancy wash fabric manufactured in New England for 9 2-3 cents a yard is sold by the manufacturer at 14% cents-a manufacturing profit of 47% per cent., less selling expenses of 5 or, at most, 6 per cent. The jobber (whole sale distributer) adds 3¼ cents-a profit of 22% per cent, less selling expenses. The retailer adds another 42.8 per cent., and the American housewife gets the cloth at 25 cents-cloth that in England can be bought retail for 17 cents, identical in weave and quality! WHY?

Cotton curtain scrim, found in millions of homes, is made in America at a cost that gives the manufacturer ample profit, selling it to the print works at 6 cents a yard. The print works sells to the jobber at 10 1-3 cents, although it finishes the goods at a cost of 1.37 cents. The jobber adds 20 per cent., laying down the curtain scrim to the department store at 12% cents. The retailer charges the American housewife 19 to 29 cents. More than likely he advertises it as "IMPORTED" and sells it for the top price. because the tariff is so high that the genuine imported goods cannot be sold for less. It costs just as much in England to make this curtain material, yet the English retailer sells it for 15.22 cents (71/2 pence) a yard, against 19 to 29 cents under the American tariff! WHY?-From N.
