OUR ATTITUDE

Readers of The Mail may well be puzzled as to the political attitude of our paper. We haven't any. In the beginning of the presidential campaign, we signed up for plate from each of the three great parties, Republican, Democratic and Progressive. The matter, which comes ready set up for printing, has been arriving rather steady by jerks of late and we insert it as it comes. So you may see the rather strange and unique proposition of praise for Col. Roosevelt in one column and similar words of commendation for President Taft in another, while another page may describe Mr. Wilson as the only person who can save our country from the eternal bow-wows. You may believe all of it, if you like, or you can take it as we do, with a large dose of salt. At any rate we are supplying you with a variety, and some old gink has said that "variety is the spice of human existence." —THE EDITORS.

Eggs are only five cents a dozen in China, but most persons would rather live elsewhere and pay a little more.

The importance of newspapers is emphasized by the fact that the government is taking so much interest in their ownership and business methods.

A Michigan man who had been missing for ten years returned to his family the other day with \$100,000. Enough to buy a whole herd of fatted calves.

Good roads will aid materially in the development of Lane county along with the electric railways which, in a few years, will penetrate all our fertile valleys.

More than five billion bushels of grain were produced by the farmers of the United States this year. They didn't do it by sitting in the shade talking politics.

Blind Helen Keller, when asked how she knew that she had a large audience before her, replied that she could smell it. Can political orators smell their audiences?

The rains are said to have affected the quality of the tobacco crop. It can still be used for cigarettes, however, quality not counting in their manufacture.

Andrew Carnegie has succeeded in closing all the drinking places within fourteen miles of his castle at Skibo. But it's a safe bet there's a good supply in the castle cellar.

Senator Dixon asserts that Chas. P. Taft spent \$600,000 to nominate his brother for the presidency. This will make Geo. W. Perkins, Colonel Flinn, Chas. R. Crane and the others look like pikers.

A Kansas City woman, held up by two highwayman, was so tickled that she couldn't help from giggling when the bandits tried to search her for her purse. Naturally the men found the job too ticklish and decamped.

THIS CURES RHEUMATISM

There's been a lot of scientific "guessing" about Rheumatism, but it's pretty well proved that Uric Acid in the blood is what makes the trouble.

Kidney weakness---failure to filter the blood, to rid the system of waste matter, results in the accumulation of uric acid

The passage become clogged with deposits—this sets up an irritation which affects the kidneys and bladder and the final result is an inflammation.

When the inflammation sets in you are in serious trouble—don't allow it to go to far—get ahead of it—avoid dangerous complications—start early and use

NYAL'S STONE ROOT COMPOUND

This preparation will restore the kidneys to their normal condition, cleanse the blood of poisonous waste matter, start rich red blood coursing through your veins and keep you in excellent health.

We are not recommending a patent medicine—this is a prescription medicine composed of drugs of known virtue—we know what they are and that is why we are so sure of our ground.

Certain relief from kidney troubles—in 50c and \$1.00 bottles.

Whatever a good drug store ought to have—and many things that other drug stores don't keep—you'll find here.
