## Jordan Jingles

E. M. Kimball made a business trip to Salem this week.

Henry Neal of Blue Den killed a coyote last week.

Dr. and Mrs. Adams, homesteaders on Thomas creek, spent the holidays at the T. H. Thomas ranch.

A great many school children of District 61 are absent on account of sickness. Clara McDonald and Hal Shelton have pneumonia and it has been necessary to call a physician. There seems to be an epidemic of colds and grippe.

At a road meeting Dec. 28 Roy Worth was recommended to the county court as road supervisor for the coming year. A special road tax of two mills was voted. On the same date a school meeting was held to talk over the proposition of a union high school at Jordan. The majority of those present seemed to be in favor. A committee was appointed to further investigate ways and means. It is hoped that they will be given the hearty support of all progressive citizens. There is no intelligent argument against a high school. If the arguments against it are carefully studied they will be found to be selfish, unprogressive or ignorant. As all good reforms and progress are accomplished by the untiring effort and energy of a few, it is necessary for those believing in it to talk high school in season and out of season and at all times. If you watch these columns you may see a great deal more about this subject.

# ROYAL BAKING POWDER

**Absolutely Pure**

[From a series of elaborate chemical tests.]

Comparative digestibility of food made with different baking powders.

An equal quantity of bread (biscuit) was made with each of two kinds of baking powder—cream of tartar and alum—and submitted separately to the action of the digestive fluid, each for the same length of time.

The percentage of the food digested is shown as follows:

Bread made with Royal Cream of Tartar Powder:

99 Per Cent. Digested

Bread made with alum powder:

67 Per Cent. Digested

Royal Baking Powder raised food is shown to be of greatly superior digestibility and healthfulness.

W. J. Domes of McCoy was fined \$25 and costs for watering his milk. This should be a lesson to others.—Statesman

Clackamas county registered 472 marriages and 419 divorces last year. Venus beat Mars only by a small majority in that

state division. The Courier says that Portland couples swelled the divorce column to a great degree.
