

Smoke Pleasure and other Pleasures
for the Man Who Smokes

Liggett & Myers

Duke's Mixture

There is smoke pleasure in this pure old Virginia and North Carolina bright leaf. Thousands prefer it to any other pipe tobacco. Thoroughly aged and stemmed and then granulated. A perfect pipe tobacco—nothing better rolled as a cigarette.

One and a half ounces of this choice tobacco cost only 5c, and with each sack you get a book of cigarette papers FREE.

The other pleasures are the presents that are secured with the coupons in each sack of Liggett & Myers Duke's Mixture. These presents delight old and young. Think of the pleasure that you and your friends can get from a talking machine, free, or such articles as—fountain pens, balls, skates, cut glass, china, silverware, tennis racquets, fishing rods, furniture, etc.

As a special offer, during February and March only we will send you our new illustrated catalog of presents, FREE.

Just send us your name and address on a postal.

Coupons from Duke's Mixture may be used to buy from MORSE SHOE, J. T. TINSLEY'S NATURAL LEAF, GRANGER TWIST, coupons from FOUR ROSES (Cigarettes), PICK PLUG CUT, FIDELITY CIGARETTES, CLIX CIGARETTES, and other tags and coupons issued by us.

William Allan White once wrote what was the matter with Kansas. We wish he would come out here and write what is the matter with Oregon.

For there is something the matter with this state. Take any impartial hardheaded observer and lead him from San Diego to Vancouver and he will tell you that through all that territory the finest land, the richest resources, the most healthful and well balanced climate are to be found in Oregon.

Beautiful rivers and valleys, wooded and snow-crowned mountains, primeval forests, salubrious acres, gold and copper and coal, water power galore, timber enough to trestle the world, territory larger than New England states, and with a fertility and variety of soils that can't be equalled—and yet take the state by and large and it is behind all others in the march of industrial and commercial progress.

Look at irrigation in the Rogue River Valley. We should have it. If we were less favored by nature we would have dug canals years ago. But it is like pulling an elephant's tusks to get the property owners themselves started.

Look at the good roads. There is scarcely a good road in the state. Before 1915 British Columbia will spend \$16,000,000 for good roads, the state of Washington \$21,000,000, California is spending \$30,000,000.

Oregon is larger than Washington, is certainly as rich, and yet less than \$3,000,000 was spent in 1912 by counties and state together, and unless the unexpected happens the \$10,000,000 appropriation for good roads proposed by the Pacific Highway commission will fall by the wayside.

What's the matter? Have we been so favored by nature that our sinews are lax and our energies impaired? Is there a hookworm in our midst?

We have become the most progressive state in the union politically. Largely because we reached the depths of political corruption. Must we be driven to industrial, agricultural and commercial enterprise by tasting the bitterness of poverty and adversity? That is the course necessary only for the brute and the fool.

Nature intended this state to be the haven of millions of people, its riches are thrown broadcast through the commonwealth, and yet a large majority of the people do nothing but sleep and wonder why collections are slow.

It's time a few of the brethren should wake up or be buried.

JOHN DEERE SPREADER

The Spreader with the Beater on the Axle

The Simplest Spreader Made

Entirely New .. Nothing Else Like It

THE JOHN DEERE SPREADER—The Spreader with the Beater on the Axle—is as much of an improvement in spreader manufacturing as the self-binder was over the old reaper. It is made along entirely new and different lines from the ordinary spreader.

The first manure spreader ever made was built in 1878 by the Kemp & Burpee Manufacturing Company. Up to the time of the John Deere Spreader every spreader has been made along the same general lines as this first machine. Power was taken from one end of the main axle and transmitted, either through chains or gears, to the beater, mounted above and in the rear of the axle. Heretofore the only improvement in manure spreaders since the first one was made in 1878 has been in the refinement of details.

The John Deere Spreader is a radical departure from the old method of construction. It is made along entirely new lines and is a great improvement over the old style spreader. Come in and examine the machine and you will readily see why the John Deere Spreader is so far superior to any spreader heretofore constructed.

Even if You Don't Need a New Spreader Now come in and get one of our spreader books. They contain a number of articles on why farm manure should be used on the land, how it should be applied, how it should be stored, the value and effect of using it in various ways. In addition there is a detail description of the John Deere Spreader with illustrations in colors of this spreader working in the field.

\$5. Oliver Typewriter BRINGS

Send \$5 for the Oliver Typewriter—the machine will come a-flying. The newest Model—No. 5—the regular \$100 machine—with no extra charge for Printype.

For the price of a good fountain pen you secure the World's Greatest Typewriter. You can pay the balance at the rate of 17 cents a day.

This irresistible "\$5 offer" is sweeping everything before it. The era of universal typewriting is coming. The triumph of the typewriter over primitive pen-and-ink has been brought about by the same machine that introduced visible writing.

The **OLIVER** Typewriter
The Standard Visible Writer

This is the typewriter whose high efficiency has made it the choice of the greatest firms and corporations. It is the simplest of all typewriters, yet the swiftest and by far the most versatile. The moving parts work freely in a solid metal framework, making the machine so strong that the hardest usage has no effect upon it.

No Extra Charge for Printype

Most people prefer to have the machine equipped to write in Printype. This beautiful type is obtainable only on The Oliver Typewriter.

It is the greatest style improvement ever evolved for typewriters—the most easily read type in existence—the type which conforms to that in universal use on the world's printing presses!

Win Success With The Oliver!

The Oliver Typewriter aids success-seekers in a multitude of ways. The real-life stories of achievement that center around it would fill volumes.

No matter what your work may be—in office, store, shop or home—The Oliver Typewriter will prove itself a great convenience and an actual money-maker.

It stands for order and system and success. It is the visible evidence of the progressiveness of its owner. Young people with brains, ambition and Oliver Typewriters are succeeding everywhere. Can you afford to let \$5 stand between you and success?
