### What One Man Told Us:

"Last January I started the new year right by opening a checking account with your bank, and paid all bills in this way. My check stubs soon showed me the leaks in my pocketbook. Several times, I avoided paying bills twice, for cancelled checks are legal receipts. My money was right at my finger tips whenever I wanted it, but it was absolutely safe where no one could steal it. It put system into my spending and increased my credit."

Why don't YOU start a checking account? You don't need much to start with—just bank your pay, and pay all bills by checks. You'll soon have a surplus.
