

Studebaker

"Yes Sir! Studebaker wagons are made to back up a reputation."

"I know, because wagons of every make come into my shop for repairs, and I have a chance to see how few are Studebakers."

That's the opinion of thousands of blacksmiths who know the quality of Studebaker wagons.

The owners never regretted that they bought Studebakers.

Tested materials, accurate workmanship insure a wagon unequalled for durability, and this careful selection of wood, iron, steel, paint and varnish has been a fixed rule with the Studebaker Company for sixty years. That is why a Studebaker wagon runs easiest and lasts longest. It is built on honor.

Whether you live in town or country, there is a Studebaker vehicle to fill your requirements for business or pleasure — and harness of every description made as carefully as are Studebaker vehicles.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. **Dr. J. C. Cheney & Co., Toledo, Ohio,** is the only Constitutional cure on the market. It is taken internally in doses from 15 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Silverton will bring their ball team and fans to our city Sunday and with a prospect of snappy play, the public should patronize the home boys generously as they went about fifteen dollars behind on last Sunday's game, owing to the inclement weather.
