

**Studebaker**

**"Nearly all those Wagons and Buggies are Studebakers"**

Every year over one hundred thousand Studebaker vehicles are sold.

This tells you what the farmers of the country think of the Studebaker wagons.

This appreciation has been constantly growing for sixty years.

This appreciation has been earned by the determination of Studebaker to produce an honestly built wagon that will do a full day's work and keep on doing it, and not to build a cheap one.

The man who buys the Studebaker gets all the improvements gained by the experience of two generations of wagon builders.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 15 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.
