## Bunker Hill

Last Thursday was sure a great day to a lot of the people of Bunker Hill who had interest enough in their public school to take a vacation and attend the program given by Miss Allen who has been teaching school district No. 11, for the past winter. The program which consisted of Irish songs, humorous pieces, stories of old Webfootland, and dialogues that would make you laugh until you ached, was begun shortly after 11 o'clock. Dinner was served at noon and say Mr. Editor, talk about your big feeds, I doubt if you ever saw anything that would come any where up with the Bunker Hill cooks in tempting a man's appetite. After dinner the evening was taken up in running races. They had a girl's race for all girls under 12 years. Then a young ladies' race after which came the fat woman's race, and I want to tell you that the speed that those ladies ran at would make a snail gallop to keep up with them. They also had boys' races and three legged races and sack races which all seemed to enjoy, and all went home in the evening feeling well paid for the time taken in being present and helping to make it a great day to be remembered by all who were fortunate enough to be present.

# Comparative Digestibility of Food

Made with different Baking Powders

From a Series of Elaborate Chemical Tests:

An equal quantity of bread (biscuit) was made with each of three different kinds of baking powder—cream of tartar, phosphate, and alum—and submitted separately to the action of the digestive fluid, each for the same length of time.

The relative percentage of the food digested is shown as follows:

Bread made with

Royal Cream of Tartar Powder:

100 Per Cent. Digested

Bread made with

phosphate powder:

68 1/4 Per Cent. Digested

Bread made with

alum powder:

67 3/4 Per Cent. Digested

These tests, which are absolutely reliable and unprejudiced, make plain a fact of great importance to everyone: Food raised with Royal, a cream of tartar Baking Powder, is shown to be entirely digestible, while the alum and phosphate powders are found to largely retard the digestion of the food made from them.

Undigested food is not only wasted food, but it is the source of very many bodily ailments.

"Shun an apple pie as you would a rattlesnake," says Rev. Mr. Voliva, boss of Zion, near Chicago. But we prefer the teachings of the late Henry Ward Beecher, who has said: "And the final pie, though born of apple sugar, butter, nutmeg, cinnamon, lemon, is like none of these, but the compound of them all, refined, purified and by fire fixed in blissful perfection."

Mrs. Leslie Townes and Miss Vera Trask of Fox Valley visited with friends and relatives a few days last week.

Miss Zona Ray spent several days as the guest of her sister Mrs. Ona Shelton of Scio.

Miss Marguerite Ryan has returned home from Scio where she has been attending high school.

Henry Shank and J. Sandner took a fishing trip to Fish Lake Saturday.

Mamie and Elsie Peters and Josie and Francis Kloer were guests of the Lee Downing home Sunday.
