Forest Notes

The Balkan War has brought about a rise in certain lumber prices in Europe because of the big demand for wood for ammunition boxes.

Dogwood, the principal source of shuttles for use in cotton mills is growing scarcer year by year, and various substitutes are being tried, but with no great success.

The officials of the Yosemite National Park are cooperating with the forest officers of the Stanislaus and Sierra national forests for fire prevention and control in both the park and the forests.

Experiments with a tree planting machine at the Utah Agricultural Experiment Station indicate that it may be used to advantage in reforesting old burned areas on the national forests.

The leading forest schools of the country not only have their own forest tracts for continuous experiments, but give their students actual experience in the woods by having them take part in big lumbering operations.

A Nervous Woman Finds Relief After Many Years

Women who suffer from extreme nervousness, often endure much suffering before finding any relief. Mrs. Daniel Kintner, of Defiance, O., had such an experience, regarding which she says:

"I had stomach trouble when I was eighteen years old that broke down my health, and for years I suffered with nervousness, headache, indigestion and nervous spasms. The spasms got so bad I would have them three or four times a week. After trying nearly every remedy recommended, I began taking Dr. Miles' Nervine, and I must say it helped me wonderfully. I have had no severe nervousness for several years."

MRS. DAN KINTNER,
1002 Pleasant St., Defiance, O.

Many remedies are recommended for diseases of the nervous system that fail to produce results because they do not reach the seat of the trouble. Dr. Miles' Nervine has proven its value in such cases so many times that it is unnecessary to make claims for it. You can prove its merits for yourself by getting a bottle of your druggist, who will return the price if you receive no benefit.
