"THE BRAND THAT KILLS"
REQUIRES NO MIXING OR PREPARATION,
ALWAYS READY FOR USE ALWAYS RELIABLE

Sure death to **Prarie Dogs** if distributed early in the spring before the frost is out, and before the grass starts up. Hundreds of dog towns have been completely destroyed with the "Wood-lark" brand. Try it the first bright warm days this spring and be convinced. It's easily and quickly done. Don't wait till the grass begins to grow. They won't eat the poison then. Get a supply **NOW** and have it ready to use at the right time. The results will make your heart glad. But do it now. **Destroys Gophers, Sage Rats, and Ground Squirrels** of all kinds. A single kernel kills. Most economical poison made. Hundreds have been killed with the contents of a single can. **USE EARLY** when feed is scarce and before the young are born, for best results. When you buy do not experiment. Ask for the "Wood-lark" Brand. It is the best. Money back if you're not satisfied.
