SAVE YOUR GRAIN

Experience proves that many of the large threshers waste too much grain. You work hard to grow and harvest your crop, and you cannot afford to waste it. Don't divide your profits with the straw pile. Every bushel that goes there is money right out of your pocket.

BUY A STERLING THRESHER
and save your grain and thresh bill. With a Sterling thresher and an L.H.C. oil engine mounted together on the same truck you have an ideal threshing outfit, being always lined up and set ready for operation. The outfit can be started in a moment.

Most up-to-date farmers are beginning to realize that the day of the large threshing outfit is passing, and that a small thresher is as necessary on a farm as a binder.

If you are interested in saving your grain, and threshing it when you want it threshed, call and look one of these outfits over. Write for a catalog which explains the machine in detail.

We also have the Famous Deering Line of Machinery. Give us a call. We will be glad to show these machines.
BLATCHFORD BROS. SHELburn, OREGON.

AUTOMOBILE

Repairing is our specialty. An expert mechanic always at the shop. Threshermen, you had better have that engine overhauled before the season sets in. Brown's Garage and Machine Shop.

MONEY ORDERS CAN BE PAID ANYWHERE

Any money order issued after July 1, can be paid in any office in the U. S. if presented inside of thirty days from date of issuance.

If the thirty days expire, the order must be cashed either at the office of issuance or the office on which drawn.

OREGON DISPLAY

A prominent feature of the Panama-Pacific Exposition will be an extensive Oregon out-of-doors life display to cost approximately \$10,000. An area 60 x 350 feet between the Oregon building and the bay shore has been secured by the Oregon Commission and contracts have been let for the initial work. This feature will be unique at the Exposition, nothing of the sort being attempted by any other state. One of the most interesting features will be a miniature reproduction of 200 miles of the Columbia River, showing fisheries, night signals, rapids and waterfalls. This realistic bit of scenery will extend approximately 60 feet. In addition, it is announced that a reservation of 7,000 square feet has been made for Oregon in the palaces of horticulture and food products.

NOTICE FOR SEALED BIDS

The undersigned, President of the Stayton Switchboard Association will accept sealed bids up to 10 a. m., Monday, July 6, 1914, for operating the switchboard in Stayton, Oregon for one year, beginning August 2, 1914.
