### HEED THE WARNING

Many Stayton People Have Done So  
When the kidneys are weak they give unmistakable warnings that should not be ignored. By examining the urine and treating the kidneys upon the first sign of disorder, many days of suffering may be saved. Weak kidneys usually expel a dark, ill-smelling urine, full of "brickdust" sediment and painful in passage. Sluggish kidneys often cause a dull pain in the small of the back, headaches, dizzy spells, tired, languid feelings and frequent rheumatic twinges.  
Doan's Kidney Pills are for the kidneys only; they help weak kidneys to rid the blood of uric poison. There is no better recommended remedy.  
Read the statement that follows:  
Mrs. E. E. White, 303 N. Seventeenth St., Corvallis, Oregon, says: "My back and kidneys troubled me for quite awhile. Another of our family had had good results from Doan's Kidney Pills and I decided to try them. They were just what I needed, and rid me of kidney trouble in a short time.

There has not been a symptom of the complaint since."

Price 50c. at all dealers. Don't simply ask for a kidney remedy--get Doan's Kidney Pills--the same that Mrs. White had. Foster-Milburn Co., Props., Buffalo, N. Y.

### Prohibition Doomed!

After 64 years of activity by the friends of prohibition the average American today consumes almost six times as much liquors as did the average American of 1850. In spite of this there is less drunkenness. With this wonderful change for the better, prohibition has had nothing whatever to do. The real reason is found in the fact that today there is a vastly greater amount of beer consumed. And beer is not conducive to drunkenness.

Prohibition is a failure and has had but one effect wherever tried: to put a ban upon the open and above-board drinking of beer and other light beverages and to drive men to secret, immoderate drinking of the strongest stimulants. This is notably true of Maine, a prohibition state. There is ten times as much drunkenness per capita as there is in France.
