**C**URRENCY in the pocket DEPRECIATES. In the bank it EXPANDS. A person with a \$100 check in his pocket likely will go all day without cashing it. With a similar amount of currency there is a tendency to SPEND A LITTLE. The check remains intact. So it is with a bank account. A person likes to KEEP IT INTACT.

## BLOW-OUTS

From the Author's Inner Tube  
By Thin Spade

Russia wants Turkey for her Thanksgiving dinner.

The Audacious fulfilled her name and got it where most things audacious get it—in the neck.

And still both sides are winning. Sounds like the next day after an election in Illinois.

The "Latest Bulgarian effects" have gone out of style, we look soon for "Cossack tunics" and "Turkish rashes."

To the victors belong the spoils  
To the workers belong the toils.

The M. D.'s. will soon be treating a new disease. It is called "Aridity of the Thorax," and can only be relieved by medical assistance. Two-bits, please.

A Stayton woman hit her hubby over the head with a hot skillet the other day, and a Mill City woman shot her spouse with a .22. You just can't beat those people up the creek at any old game.

Somehow or other you never get just exactly what you want just exactly when you want it.

Everybody says that it is going to be a hard winter, and what everybody says is going to happen is— That philosophy is either Christian Science or Mohammedism. You can take your choice.

The following little couplet from "The Squirt Gun" illustrates one of the reasons of the high cost of living:

Brother bought an Angora,  
And for it gave a note,  
And when he couldn't pay for it,  
The Sheriff Got His Goat.

A large number of boys, and a few girls in the school are much interested in dairy record keeping and milk testing. Last Friday the class tested seven samples, the tests ranged from 4.2 per cent to 7.2 per cent. The class is learning to do the testing very rapidly. In addition to testing, each member of the class will keep a record of the amount of feed each cow consumes and the amount of milk each cow gives during the month. In this way each pupil will know if their cows are paying for their feed. We are sure that out of this large class several real dairymen will be developed. Any one who wishes to have samples of milk tested, may do so, by bringing them to the school on any of our regular test days.
