A dispatch to the Daily Telegraph from Athens says that a Turkish gunboat has been sunk by a Turkish mine at the entrance to the Bosphorus.

Dover, England, was considerably excited when a flotilla of German submarines was sighted approaching the forts. After a half hour's firing it was discovered to be a false alarm.

Washington government has served formal notice on both warring factions in Mexico, that unless they promptly prevent their troops from firing across the American boundary, stringent measures will be taken to protect American territory.

A Petrograd dispatch to Reuter's Telegram company says the Polish town of Lodz at the time of its evacuation was completely destitute of food. The population quit the town in masses, fearing the Germans. Thousands proceeded to Warsaw on foot.

The prize court at the German port of Swinemunde, on the Baltic, has rendered its decision in the cases of five Norwegian steamers seized by German warships, according to word which reached Christians. Both the ships and their cargoes were declared lawful prizes and any other.

Food, clothing or any other commodity which would in the slightest degree serve to prolong the European war, as well as contraband, will be barred from export by a bill introduced in the senate by Senator Works. Direct prohibition of export would include food, clothing, supplies, arms, ammunition, horses or war supplies of any kind, whether the same be contraband of war or not.

The German cruiser Nurnberg, which withdrew from the battle off the Falkland Islands last Tuesday and attempted to make her escape in company with the cruiser Dresden while the British warships under Vice Admiral Sir Frederic Doveson Teed were sinking the cruisers Scharnhorst, Gneisenau and Leipzig, was hunted across the water by units of the British fleet and sunk the same day.

The strike in the Colorado coal fields has been called off.

Russians claim defeat of Turks in fierce battle near Batum.

William W. Rockhill, a distinguished American diplomat dies at Honolulu.

The chief of the army engineers having the work in charge urges haste in extending the Columbia river jetties.

The Panama government has agreed with the United States the boundary line separating the canal zone and that country.

Servians Again Occupy Capital, City of Belgrade

London—The Servians, after a fierce battle Tuesday, have reoccupied Belgrade, according to a Nish dispatch to Reuter's Telegram company.

The Austrians occupied Belgrade December 2, after having besieged it since July 29, bombarding from batteries near Semlin and from monitors on the Danube.

A large portion of the city was said to have been destroyed by the fire of the Austrians.

When war was declared the Servian government moved from Belgrade to Kragujevata and later went further south to Nish, where it remains.

London—Reuter's Amsterdam correspondent says the Austrians admit defeat at the hands of the Servians, in an official communication issued at Vienna. This communication follows: "Our offensive movement, directed in a southerly direction from the River Drina, encountered southeast of Valjevo a greatly superior force of the enemy.

"Our advance was not merely stopped, but we were compelled to make more extended retirement of our troops, which for many weeks have fought obstinately and brilliantly, but with many losses.

"Against this we may place the occupation of Belgrade. A new decision and measures consequently will be taken which will serve to repel the enemy.

"During the days of December 10, 11 and 12 the enemy continued to retire along the entire front. The Servian advance guards have progressed as far as Veliki and Bosniak."

Real Winter Strikes East; Death Follows in Wake

Chicago—Winter, nearly two months overdue, got down to business Tuesday when the temperature here dropped to 2 degrees below zero, accompanied by howling blasts. The only redeeming feature of the day was the bright sunshine after two weeks of darkness and fitful snow and rain storms.

Two men were so badly frozen that amputation of their legs was necessary. A watchman was found nearly dead where he had fallen during the night. His hands and feet must be amputated, and he probably will die. The other victim was found frozen in a ditch, where he had fallen from exhaustion.

Navigation on the Great Lakes was brought to a sudden stop by stiff gales and blizzards and blinding snow. Some big boats are still out.

As showing the scope and nature of the cold wave, following are some representative high and low temperatures for the day:

Boston, 42-28 above; Buffalo, 20-10 above; Pittsburgh, 22 to 8 above; Chicago, 4 above to 3 below; Madison, Wis., 2 to 6 below; Forth Worth, 4 above to 2 below; Charles City, Ia., 2 to 14 below; Devil's Lake, N. D., 2 to 18 below; Duluth, Minn., 0 to 19 below; Sioux City, Ia., 4 to 14 below; Kansas City, 4 below; Texas points reported a maximum of 36 and a minimum of 12; Montgomery, Ala., had a maximum of 36 and minimum of 30; Jacksonville, Fla., got down to 44 and New Orleans, to 40; Los Angeles had a maximum of 60 and minimum of 40.

Thousands of Penniless Jews Are in Flight

New York—One hundred and seventy thousand Jews have fled for refuge from Galicia to Vienna, according to a letter received here from the Austrian Israelite Alliance in Vienna by the American Jewish relief committee.

"Galicia, as the field of military operations, has been cleared of almost the entire civil population," reads the letter. "At the present time there are 170,000 Jewish fugitives from Galicia here, of whom 70,000 are absolutely penniless. Furthermore, 25,000 destitute Jewish fugitives have been placed in barracks in Moravia and 70,000 in Bohemia, where barracks are also being built. These 165,000 poor Jews are in pressing need."

Mother Dead; Babe Born

New York—For the second time in the medical annals of this city, it is said, a baby was born Tuesday after the death of the mother. The mother, a young woman 20 years old, was walking along an uptown street with her father when she collapsed. They were in front of a hospital, and she was taken into the institution. Despite the efforts of the doctors, she died in ten minutes, as the result of dilation of the heart. A caesarian operation was performed. The baby, a girl, was normal and weighed seven pounds.

America Austria's Hope

Berlin—The official press bureau here gave out the following: "Austrian newspapers say that when negotiations for peace begin America will have earned the right to act as intermediary. These papers print sympathetic articles in connection with the opening of the American congress. They point out that the sending of gifts by American children to the children of dead soldiers is proof of the high motives in which the nation is guided."

President to Act at 3 A. M.

Washington, D. C.—To push an electrical button to give a signal for opening the San Diego, Cal., exposition on the beginning of the new year, President Wilson will be awakened before 3 o'clock New Year's morning. He will push the button at midnight, Pacific Coast time, which is 3 a. m. here.

SMALL SHIP'S DAY IN PACIFIC ENDING

Secretary Daniels Promises to Give Better Defenses.

Opposes Extravagant Appropriations for Submarines or Air Craft—Secrecy Urged.

Washington, D. C.—While admitting that the Pacific Coast was now without adequate protection in case of war, Secretary Daniels told the house naval committee Saturday that if an emergency arose the Atlantic fleet could be dispatched to the Pacific within 18 days to deal with any hostile craft that might succeed in running the gauntlet of American submarines from Manila and Honolulu.

Moreover, the secretary announced that the day of a small fleet in the Pacific would end next March, when the Panama canal is to be formally opened with an international naval parade.

In the senate Senator Weeks, of Massachusetts, delivered a prepared speech deprecating too much publicity in the matter of military strength and pointing to the secret methods of the European powers now at war as an object lesson.

Led by questioning, participated in by nearly every member, Secretary Daniels discussed the navy's inability to get satisfactory airships, the problem of the submarine torpedo boats, which has offered more difficulties than all other craft combined; opposed extravagant appropriations for either the submarines or air craft, and incidentally suggested that the public need not be surprised any time from now on to read of a battle royal between the fleets of the opposing nations of Europe.

A reference to Mexico followed questions by Representative Roberts, of Massachusetts, about criticisms by the general board of the navy of the use of battleships where gunboats would suffice. Mr. Daniels agreed with this, in general, but said there were occasions and emergencies when battleships and not gunboats were essential.

"What was the military necessity," Representative Roberts asked, referring to the Vera Cruz occupation, "of keeping 18 battleships off Vera Cruz and Tampico when Vera Cruz was held by the American army and marines?" "There were not 18 all the time," the secretary replied. "The number was gradually reduced from 18 to four. If we had had to blockade all the Mexican ports," he explained, "all the battleships would have been needed. If we had gone to Mexico City we would have had to take half the navy with us."

Andrew Carnegie Teartful Over European Catastrophe

Washington, D. C.—With tears in his eyes, while speaking of the horrors of the European war, Andrew Carnegie, while visiting the White House Saturday, praised President Wilson for his efforts toward peace and opposed the proposal for a truce between the belligerent nations through the Christmas season that would be followed up by a resumption of hostilities.

Mr. Carnegie said the military caste of Germany was responsible for the war, while the Kaiser was an exponent of peace.

"The Kaiser has told me he took the greatest pride in the fact that he reigned for many years without being involved in war," said Mr. Carnegie. "But he was surrounded by a ring of militarists who were eager for war at any price."

Mr. Carnegie showed interest in a suggestion to him that he might be called upon by the President to help bring about peace when the time came. "I will do anything I possibly can," he said. "I believe Mr. Wilson earnestly desires peace and the entire country should support him."

For the "men in the trenches," Mr. Carnegie expressed the greatest sympathy.

"They had nothing to do with bringing about this terrible conflict," he said. "All they can do is to obey orders and shoot each other down. It is terrible that so many widows and orphans are being made because a few men wanted to go to war. It is terrible that all the scientists and other men of culture in Germany are not allowed to advise the Kaiser instead of the small clique of military men."

Air Over Paris Guarded.

Paris—With the return to Paris from Bordeaux of President Poincare, the members of the cabinet and parliament and the diplomatic corps, renewed precautions have been taken to protect the city from raids by hostile aviators.

A strong squadron of aeroplanes flew Saturday over the Palace of the Elysee and the buildings of Parliament. These aviators at times attained an altitude of 2500 yards, where the temperature was recorded as 14 degrees above zero, Fahrenheit.

Sturdee's Loss Is Small.

London—The secretary of the admiralty has received a cable dispatch from Vice Admiral Sturdee, of the British squadron, saying that in the battle off the Falkland Islands, in which the German cruisers Scharnhorst, Gneisenau and Leipzig were sunk, the British casualties totaled seven men killed and four wounded. No officers, the dispatch says, were either killed or wounded.

NORTHWEST MARKET REPORTS.

Portland—An important meeting of the grain trade of Portland was held at the Merchants' Exchange the early part of this week to consider the matter of state grain inspection. It was the unanimous opinion of those at the meeting that a state grain inspection law should be in force in Oregon, which would put this state on the same basis as every other grain state in the Union.

This step is regarded as a most important one by the members of the grain trade. It is declared that Portland has lost much grain business because of the lack of state grain inspection, and that thousands of carloads of grain have gone to the Sound markets that would otherwise have come to this city.

Two years ago a state grain inspection bill was drawn up and sent to the legislature, but it did not pass. Not only do grain merchants want such a law, but the farmers are said to be a unit in favor of it.

The demand for hops, both for exportation and for domestic account, continues strong and prices are being maintained without difficulty.

The most important development in the market was the news received from Grants Pass that the bulk of the supply remaining in that section had been bought by Durbin & Conroy at 12 cents. The purchases by this firm were estimated at 700 bales, including the Flannagan & Cornell crop.

The Washington market continues strong and active, with 12 cents bid for the best Yakimas. McNeff Bros. purchased the Laisne crop of 275 bales and another lot of 350 bales in that section.

The frost of the last week has nipped most of the small vegetables in this section and larger supplies of radishes, onions and such lines will be brought up from California for the local trade.

The egg market was easy at the beginning of the week. Oregon eggs were not plentiful, but the efforts to work off storage stock affected the entire market. Local candled ranch were sold at 40 and 41 cents and there were reports of some being offered at 38 cents.

The Secret of Health is Elimination of Waste

Every business man knows how difficult it is to keep the pigeon holes and drawers of his desk free from the accumulation of useless papers. Every housewife knows how difficult it is to keep her home free from the accumulation of all manner of useless things. So it is with the body. It is difficult to keep it free from the accumulation of waste matter. Unless the waste is promptly eliminated the machinery of the body soon becomes clogged. This is the beginning of most human ills.

DR. PIERCE'S GOLDEN MEDICAL DISCOVERY

Assists the stomach in the proper digestion of food, which is turned into health-sustaining blood and all poisonous waste matter is speedily disposed of through Nature's channels. It makes men and women clear-headed and able-bodied—restores to them the health and strength of youth. Now is the time for your rejuvenation. Send 50 cents for a trial box of this medicine.

Ducky Periscopes Used.
Such things exist as ducky periscopes—short lengths of pipe held upright on a float and looking exactly like the real periscope. The submarine sets them adrift for you to find—sometimes scatters several of them.
When one is sighted you can not stop to consider whether the little object floating on the sea half a mile or so distant does or does not mean 250 pounds of high explosive coming straight at you. Maybe you will see an aeroplane maneuvering over it in a way that carries conviction that it does. You don't dare to take any chances, and so you train all the guns at it.
Then the real submarine sinks up on the other side of the ship, and with the swift rush of its torpedo the latest of sea tragedies comes to an end—The Independent.

Appropriately Named.

Helping Kidneys By Clearing Blood

A Function Greatly Assisted By a Well-Known Remedy.

Most readers will be interested to more fully understand why analysis of urine is so important. In the use of S. S. S. to purify the blood, its action is a stimulant to the myriad of fine blood vessels that make up the constructive tissues of the kidneys. All the blood from all over the body must pass through the kidneys. They act as testers and assayers. And according to what they allow to pass out in the urine, both as to quantity and materials, the health of the kidneys and the quality of the blood is determined. The catalytic energy forced by S. S. S. is shown in the urine. It is also demonstrated in the skin. And as the blood continues to sweep through the kidneys the dominating nature of S. S. S. acting as it does through all the avenues of elimination, shows marked decrease of disease manifestations as demonstrated by urine analysis. This assistance is a great relief to the kidneys. The body wastes are more evenly distributed to the excretories; their elimination is stimulated by the tonic action afforded the liver, lungs, skin and kidneys. Thus, in cases of rheumatism, cystitis, chronic sore throat, huskiness of voice, bronchitis, asthma and the myriad of other reflex indications of weak kidney action, first purify your blood with S. S. S., so it will enable the tissues to rebuild the cellular strength and regain the normal health.

S. S. S. is prepared by The Swift Specific Co., 327 Swift Bldg., Atlanta, Ga., and if you have any deep-seated or obstinate blood trouble, write to their Medical Dept. for free advice.
