DANGER IN DELAY
Kidney Diseases Are Too Dangerous for Stayton People to Neglect.

The great danger of kidney troubles is that they so often get a firm hold before the sufferer recognizes them. Health will be gradually undermined. Backache, headache, nervousness, lameness, soreness, lumbago, urinary troubles, dropsy, gravel and Bright's disease often follow in merciless succession. Don't neglect your kidneys. Help the kidneys with Doan's Kidney Pills, which are so strongly recommended right here in this locality.

O. T. Porter, justice of peace, 614 Elm St., Albany, Ore., says: "Seven or eight years ago, my back was in bad shape and my kidneys were disordered. Doan's Kidney Pills fixed me up all right. They made my kidneys normal and rid my back of pain. Whenever I have needed a kidney medicine since, I have taken Doan's Kidney Pills and they have benefited me."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Porter had. Foster-Milburn Co., Props., Buffalo, N. Y.

Keep Warm—An unlimited quantity of old fir wood for sale, on the ground $1.00, and delivered $1.30 per tier.

DAMES AND DAUGHTERS.

Miss Nellie P. Carter of Boston pays $42,586 as her tax on personal property worth $2,433,500.

Dr. Lillian Herald South, head of the Kentucky state bacteriological laboratory at Bowling Green, is said to be the only woman to hold the important position of state bacteriologist.

Mrs. Amy D. Winship, who, at the age of eighty-three, completed a four years' course at the University of Wisconsin last June, says that she finds in study the best means of keeping young, and she has accordingly planned a three years' course in graduate work at various universities.

Mlle. De Seiligny, member of one of the foremost families in France, found two wounded soldiers in the ruins during the bombardment of Senlis. She got a donkey and cart, hoisted the wounded men into it unaided and, despite bursting shells, marched thirty miles beside the donkey to the nearest ambulance.

State Lines.

During the past fiscal year, July 1, 1913, to June 30, 1914, 57,762 acres of land in the national forests in California were listed to 510 applicants under the forest homestead laws.

Texas, the largest of all the states in area and fifth in the number of inhabitants, ranks nineteenth in the value of its mineral production, according to the United States geological survey. In 1911 it ranked twenty-third.

Illinois was third among the states of the Union in 1913 in the value of its mineral production. The state owes its prominence as a mining state chiefly to its importance as a producer of coal and petroleum and to the development of its clay working industries.

PITH AND POINT.

Nothing succeeds like being prepared for success.

Diplomacy is the art of concealing our dislikes.

Confession of weakness is the beginning of strength.

To a large part of the populace it is a long time between baseball seasons.

The impregnable fort, like the largest ocean steamer, now has to be started all over again.

Unless you are nervous you can't realize how much noise there is in the so called busy world.

Do not sit forever waiting for your ship to come in. Better dig a few clams along the shore.

Reports from Europe to the effect that business is going on as usual must refer to the junk business.

There are not going to be any rivers of doubt on the map of Europe after the great powers get through with it.

What business needs to do just now is to make more things in the United States to bear the label "Made In the U. S. A."

In reckoning the cost of the war the figure "million" has been found pitifully inadequate. It's necessary to talk in billions.

Next to the sweetness of having a friend whom you can trust is the convenience of having a friend who will trust you occasionally.

Mark Hambourg, the famous Russian pianist, has sued the London Mail for libel for calling him a German. War makes strange lawsuits.

The Royal Box.

King Louis of Bavaria claims lineal descent from the Stuarts.

Prince Henry, inspector general of the German fleet, is the only brother of Emperor William.

The king of the Belgians, though comparatively a young man—he is only thirty-nine years of age—is one of the most versatile monarchs in Europe. He has taken his degree as an electrical engineer and railroad engineer, and himself drew up the plans for a new railway between Antwerp and Brussels, superintending the work himself.

Science Siftings.

Benzine is being extracted from coal by a new electrical process invented by a Swede.

Two French scientists claim that a raw food diet increases the white blood corpuscles, which play an important part in the fight against disease bacteria.

Photographs of the planet Mars taken through color screens by an eminent Russian astronomer showed that its "canals" were filled with some substance sea green in color.

Train and Track.

The French railway in Indo-China uses metal sleepers entirely.

For handling freight cars at Cleveland a large railroad has installed electric locomotives which run on separate tracks and push the cars with side arms.

An English railroad has built a machine operated by compressed air that loads two cars at once with steel rails or unloads them and places the rails ready for laying at a rate of four a minute.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
