Tacoma-Local commission men report a splendid movement of apples and a firmness in prices. Prospects for a healthy business for the remainder of the season are bright. During the early part of the war, shipments of this fruit could not be made to foreign countries and to move the commodity it was necessary to set prices down nearly twice as low as they were last year.

Potatoes are getting firm. Last season the spuds opened at high prices and went down toward the latter part. This year the tables are just reversed, the tubers opening at low prices and going up as the season advances. Merchants say, however, that quota-

# By Clearing Blood

A Function Greatly Assisted By a Well-Known Remedy.

Most readers will be interested to more clearly understand why analysis of urine is so important. In the use of S. S. S. to purify the blood, its action is a stimulant to the myriad of fine blood vessels that make up the constructive tissues of the kidneys. All the blood from all over the body must pass through the kidneys. They not as testers and assayers. And according to what they allow to pass out in the urine, both as to quantity and materials, the health of the kidneys and the quality of the blood is determined. The catalytic energy forced by S. S. S. is shown in the urine. It is also demonstrated in the skin. And as the blood continues to sweep through the kidneys the dominating nature of S. S. S., acting as it does through all the avenues of elimination, shows a marked decrease of disease manifestations as demonstrated by urine analysis. This assistance is a great relief to the kidneys. The body wastes are more evenly distributed to the enunctories; their elimination is stimulated by the tonic action afforded the liver, lungs, skin and kidneys. Thus, in cases of rheumatism, cystitis, chronic sore throat, huskiness of voice, bronchitis, asthma and the myriad of other redex indications of weak kidney action, first purify your blood with S. S. S., so it will enable the tissues to rebuild the cellular strength and regain the normal health.
