The Story of Makepeace Jones

AT BIRTH, he was pro-claimed a "Future Great." He grew up a model To his parents' entreaties that

he stay in the home town and become famed, Makepeace turned a deaf ear. It offered no oppor-tunity of advancement. It was prohibition ridden—its inade-quate taxes permitted of no improvements, no expansion. Business was stagnant, the town was no-license — dead. Make-peace made the mistake of quitting one "dry" town for another. He had no appetite for strong stimulants, but he chafed under a law that denied his right to drink healthful, nutritious beer, even temperately. His rights as

a freeborn citizen could not be challenged by such shallow laws. His disregard of prohibitory law became habitual and he fre-quented blind pigs—at first, in independent indignation—later, because he wanted to. His appetite for strong stimulants developed. Makepeace Jones, the "Fu-

ture Great," became a drunkard. Had he been privileged to enter licensed saloons, he would have entered them only occasionally. Brain-and-body fag demanded a mild stimulant — a once-in-awhile glass of good, re-freshing beer. Denied the na-tional beverage, the drink of True Temperance, Makepeace Jones became a social outcast.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it falls to cure. Send for list of testimonials.
