SteeI vs. Iron.
For some purpose iron is to be preferred to steel and vice versa. To easily distinguish one from the other, make a bright spot on the metal with a file or sand paper and apply a single drop of nitric acid. Allow it to remain for one or two minutes and wash or wipe off. If the spot has a pale ashy appearance it is wrought iron; if it is a brownish black, it is steel; if a deep black, it is cast iron.

Bonnet in Comradeship.

Most Skin Trouble Readily Overcome
The Active Principle of a Famous Remedy Works Wonders.

Many people have marveled the way S. S. S. overcomes skin troubles. The explanation is the fact that S. S. S. works in the blood and the blood is really a most intricate and extraordinary mass of arteries and veins.

When you come to realize that the skin and the flesh beneath are composed of a network of tiny blood vessels you solve the mystery.

There are wonderful medicinal properties in S. S. S. that follow the course of the blood streams just as naturally as the most nourishing food elements.

It is really a remarkable remedy. It contains one ingredient, the active principle of which is to stimulate the tissues to the healthy selection of its own essential nutriment. And the medicinal elements of this matches blood purifier are just as essential to well-balanced health as the nutritious elements of the meats, grains, fats and sugars of our daily food.

Not one drop of minerals or drugs is used in its preparation. Ask for S. S. S. and just insist upon having it. And if you desire additional advice and counsel upon any matter concerning the blood and skin, write to the Medical Department, The Swift Specific Co., 529 Swift Bldg., Atlanta, Ga.

Do not allow some zealous clerk's eloquence over something "just as good" as S. S. S. to fool you with the same old mineral drugs. Beware of all substitutes! Insist upon S. S. S.

Pipefish Has "Pocket."
The pipefish, as it is called, from the length of its jaws, has a pocket on the under side of its body nearly half its length. It is found in the male species only, and is the only part of its body which is unprotected by large flat plates, which take the place of scales in its protective armor. In this pocket the young fish are carried very similar to the way the kangaroo carries its young.

Auto Races on Tracks of Salt.

LIKE MAID'S BLUSH

Free Simulates Color That Comes and Goes on Cheek.

To the Uninitiated, One of the Wonders of the Florida Swamps is the Plant That Constantly Changes Its Hues.

The blush of a pretty maiden has oft been extolled in song and story. But do you know that among the many wonders of the vast Florida swamps there is a tree, known as the blushing tree, whose mysterious and beautiful glow of color during a rainstorm is far prettier than that of the prettiest maiden?

When the cool rain drenches the blushing tree a change of color is noted. Gradually, yet unmistakably, the green hue gives way to pink. In a few minutes the green fades from sight. Only in a few half-hidden spots beneath the lower branches and on its trunk is there a tinge of green to be seen.

After an hour or more, when the shower passes over, the wonderful tree assumes its familiar green once more. As it is changing back to emerald the spectator suddenly realizes the secret of the phenomenon. Can you guess what it is. No? Well, we'll tell you. Certainly, tiny insects, and not the tree itself, change. These peculiar parasites are possessed of the power of chameleons.

A POTATO ROMANCE

"If I were a farmer boy, or a boy without capital, and wanted an early competency, I'd start right out growing Potatoes," said Henry Schroeder, the Potato King of the Red River Valley, whose story in the John A. Salzer Seed Co.'s Catalogue reads stranger than a romance.
That advice of Mr. Schroeder's, the self-made Potato king, comes from a warm heart, a level head, an active hand, and above all, a successful Potato grower!

VITAL FORCE
Disease germs are on every hand. They are in the very air we breathe. A system "run down" is a prey for them. One must have vital force to withstand them. Vital force depends on digestion—on whether or not food nourishes—the quality of blood coursing through the body.
DR. PIERCE'S Golden Medical Discovery
Strengthens the weak stomach. Gives good digestion. Enlivens the sluggish liver. Feeds the starved nerves. Again full health and strength return. A general upbuilding enables the heart to pump like an engine running in oil. The vital force is once more established to full power.

Don't despair of "being your old self again." Give this vegetable remedy a trial—Today—Now. You will soon feel "like new again." The Honor of the Boy Scout.
The most important scout virtue is that of honor. Indeed, that is the basis of all scout virtues and is closely allied to that of self-respect. When a scout promises to do a thing on his honor, he is bound to do it. The honor of a scout will not permit of anything but the highest and the best and the manliest. The honor of a scout is a sacred thing, and cannot be lightly set aside or trampled on.—From the Boy Scout Handbook.

The Silent Hour.
One of the most valuable and effective methods of relaxation, recently tried for both children and mother, has been "the silent hour" immediately after luncheon. Each member of the family's privilege of reading, writing or sleeping is respected during this hour, in which children—after a few days' trial—readily co-operate.
