**Gets Right Twist On Rheumatism**

Makes Short Work of Cleaning Out Your Entire System--Aches and Pains Go Fast.

In S. S. S. You Get a Twist on Rheumatism that Settles It.

Many a rheumatic sufferer has been to the drug store for a bottle of S. S. S. and been handed something claimed to be "just as good." Truly, to ask for bread and be given a stone is still in practice. If you are troubled with rheumatism in any form be sure to use S. S. S. and note its wonderful influence.  
S. S. S. has the peculiar action of soaking through the intestines directly into the blood. In five minutes its influence is at work in every artery, vein and tiny capillary. Every membrane, every organ of the body, every emunctory becomes in effect a filter to strain the blood of impurities. The stimulating properties of S. S. S. compel the skin, liver, bowels, kidneys, bladder to all work to the one end of casting out every irritating, every pain-inflating atom of poison; it dislodges by irritation all accumulations in the joints, causes acid accretions to dissolve, renders

**Have an Arctic Bunk?**  
A "bunk" house is an Arctic hotel made of logs, with moss chinks, a dirt roof and a dirt floor. A great sheet iron stove keeps it warm. Two rows of bunka, covered with grass or brush, extend along the walls. The old-fashioned string and latch hold the whip-sawed door closed and there is a place to cook the meals. To stay over night costs a dollar.

**Do Your Best.**  
Play the game! "We are not here to whine and complain, to stay down because we are knocked down, to blame the inequalities of the ground or the unfairness of the umpire. A photographer has to be a man of rare tact in order to get his subject to look pleasant instead of laughing himself.

**AGASSIZ AS A BOY**

Seems to Have Had Normal Share of Mischievousness.

In His "Letters and Recollections" He Has Told of His Amusing Encounters With a Prussian Governor.

An anecdote of Alexander Agassiz' boyhood in Neuchatel, in the days when that Swiss canton was administered by the Prussian officials, shows that the man who was to become so famous as a scholar and a man of science had his full share of a healthy boy's mischievousness. The story is told in his "Letters and Recollections."

The small boys of Neuchatel were much interested in politics. They were arrayed in two parties, the royalists and the reds. The former were devoted to Prussia, and loyal subjects of Friedrich Wilhelm; the reds were ardent Swiss patriots, who wished Neuchatel to have the same republican form of government that the other Swiss cantons enjoyed, and who resented the authority of the governor, an appointee of the king of Prussia.

The governor, who liked to show his authority in the smallest details, was so lacking in a sense of tact and of proportion as to complain to Louis Agassiz that his little son was not saluting him with enough politeness. Alexander was punished, and when he met the governor on the street the next day, he saluted him with exaggerated abjectness. The governor complained of that, too, whereupon the elder Agassiz, much incensed, gave his son a sound thrashing; for the father was a great admirer of the king, who, at the suggestion of Humboldt, had assisted him in many ways. Not content with this victory, the governor singled out his diminutive adversary at a school celebration, and held him up for reproof before a large audience.

When it was Alexander's turn to receive his prizes from the governor, he was so angry that he refused them with scorn, turned his back on the representative of the king, and to the delight of the reds, walked out of the room. That led to further punishment at home.

Infuriated at the governor's treatment, the youthful patriot collected a band of confederates of his own age, stormed the castle on the night of a large dinner party at which his father was present, and smashed all the windows of the state dining hall. Louis Agassiz, suspecting the instigator of this outrage, rushed home, but found his son safely in bed and apparently asleep.

Commenting on this episode in after years, Alexander Agassiz remarked that it was perhaps fortunate he came to the United States at an early age, for with his views he would surely have been hung or shot before he had grown to middle age!--Youth's Companion.

**BIRD'S "CAGE" IN FISHLAND**

Ingenious Novelty That Gives Canary the Appearance of Living Under Water.

Have you goldfish and a canary in your home? If so, read about the following ingenious novelty: It consists of a goldfish bowl made with double walls. In the center there is a dry space large enough to form a bird cage. While the fish swim about in the water between the two walls of glass, birdie seems also to be submerged. The first time your friends see this supposedly amphibious canary, they will be very much surprised and puzzled.--New York World.

They will be very much surprised and puzzled.--New York World.

**Bears in the War Region.**  
An enormous black bear was seen slouching along midway between the Russian and Austrian trenches in the Carpathians the other morning. The business of war was forgotten and the Austrians and Russians sent a volley at the unfortunate bear, killing it. There are large numbers of bears and wolves in the southeastern ranges of the mountains, and very often advance guards have to fight for their lives with these ferocious beasts, which, driven by hunger and made furious by the sound of cannonading, are ready to attack any number of men.

**Egypt's Onion Crop Good.**  
Consul Arthur Garrels reports from Alexandria, under date of January 21, that an average crop of onions is looked for in Egypt this year, as both weather conditions and water supply have been favorable and there have been no war disturbances in the region devoted to the cultivation of this vegetable.

**Favorite Star.**  
From ancient days Regulus has been one of the favorite stars of mariners and so-called astrologers. The ancient names designated it as the king of stars. In its apparent passage through the path of the zodiac the sun is almost between us and Regulus, and once a month the moon is near it and at times comes directly between it and our earthly vision, or "occults" it. For this alone Regulus ought to be one of the fascinating stars at this time of the year.

**Act Not Covered by Law.**  
In a negro district a member was on trial, charged with stealing chickens. The evidence went to show that the defendant had been found with his foot in a steel trap at the door of the henery, while an empty sack lay near by. The decision of the judge was to this effect: "De co't finds dat de 'endant hadn't no criminal 'entions. Dah haint no law to p'vent a gemmen from puttin' his foot in a steel trap ef he wants ter do it."

**WONDERFUL HOW RESINOL STOPS ITCHING AT ONCE**

To those who have endured for years the itching torments of eczema or other such skin-eruptions, the relief that the first use of resinol ointment and resinol soap gives is perfectly incredible. After all the suffering they have endured and all the useless treatments they spent good money for, they cannot believe anything so simple, mild and inexpensive can stop the itching and burning INSTANTLY! And they find it still more wonderful that the improvement is permanent and that resinol really drives away the eruption completely in a very short time. Perhaps there is a pleasant surprise like this in store for you. Resinol ointment and resinol soap are sold by all druggists.--Adv.

**Eyes of Fishes.**  
The eyes of fishes are in constant use except when they are asleep. Most fishes have no eyelids, their eyes being protected from injury by a shiny material or by a thick transparent skin. The puffer, or swellfish, which habitually burrows in sand at the bottom of the water, has eyelids which cover the eyeballs when closed, the lower eyelid being larger than the upper.

**All of Tomato Utilized.**  
Italy harvests about 22,000 acres of tomatoes yearly, and the wastage amounts to practically nothing. The skins and seeds, formerly discarded, are now utilized, the former as stock feed and the latter as a source of oil. The crude oil is suitable for soap-making and for lamps, and the refined product is said to be edible.

**True Greatness.**  
True greatness of all is a thing of the heart. It is all alive with robust and generous sympathies. It is neither behind its age, and ahead of it only just so far as to be able to lead its march. It cannot slumber, for activity is a necessity of its existence. It is no reservoir, but a fountain.--Roswell D. Hitchcock.

**Animal Weather Prophets.**  
Regarded as weather prophets by the natives, the "black howlers," largest of the Panamanian monkeys, set up a roaring howl almost suggestive of the lion for volume of sound. They howl oftentimes before or during a storm, hence the native belief.

**To Amateur Gardeners.**  
For amateur gardeners the surest way to tell the weeds from the flowers is to pull them all out. The ones that come up again are the weeds.--Life.

**One Reason for Lying.**  
Some people tell untruths because they lack moral courage to refuse to answer questions which should not be asked.--Albany Journal.

**Would Surely Help.**  
According to a decision by a high court hogs can be muzzled. If this decision could be applied to hogs seen in swell restaurants it would help some.

**Sick Women Attention**

Is it possible there is a woman in this country who continues to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial after all the evidence that is continually being published, which proves beyond contradiction that this grand old medicine has relieved more suffering among women than any other one medicine in the world?

We have published in the newspapers of the United States more genuine testimonial letters than have ever been published in the interest of any other medicine for women--and every year we publish many new testimonials, all genuine and true. Here are three never before published:

**From Mrs. S. T. Richmond, Providence, R. I.**  
PROVIDENCE, R. I.--"For the benefit of women who suffer as I have done I wish to state that Lydia E. Pinkham's Vegetable Compound has done for me. I did some heavy lifting and the doctor said it caused a displacement. I have always been weak and overworked after my baby was born and inflammation set in, then nervous prostration, from which I did not recover until I had taken Lydia E. Pinkham's Vegetable Compound. The Compound is my best friend and when I hear of a woman with troubles like mine I try to induce her to take your medicine."--Mrs. S. T. RICHMOND, 84 Progress Avenue, Providence, R. I.

**From Mrs. Maria Irwin, Peru, N. Y.**  
PERU, N. Y.--"Before I took Lydia E. Pinkham's Vegetable Compound I was very irregular and had much pain. I had lost three children, and felt worth out all the time. This splendid medicine helped me as nothing else had done, and I am thankful every day that I took it."--Mrs. MARIA IRWIN, R.F.D. 1, Peru, N. Y.

**From Mrs. Jane D. Duncan, Quincy, Mass.**  
SOUTH QUINCY, MASS.--"The doctor said that I had organic trouble and he doctored me for a long time and I did not get any relief. I saw Lydia E. Pinkham's Vegetable Compound advertised and I tried it and found relief before I had finished the first bottle. I continued taking it all through middle life and am now a strong, healthy woman and earn my own living."--Mrs. JANE D. DUNCAN, Forest Avenue, West Quincy, Mass.
