CARRANZA REFUSES EVERY COMPROMISE Will Continue His Campaign to **Crush All Adversaries.** 

PRESIDENT SEES NO HOPE FOR PEACE

Food Situation Acute and Red Cross Funds Exhausted --- Well-to-Do Women Beg in Streets.

Washington, D. D.-General Carranza has informed the United States government that under no circumstances will he treat with General Villa, that

he will not compromise with his opponents, and that he will continue his plan to crush his adversaries by military campaign. President Wilson has before him a

ong report on General Carranza's views as given in informal conversation with an American consular officer at Vera Cruz. He found in it little hope for an accommodation of differ-

ence as between the Mexican factions, General Carranza gave the same argument for refusing to .enter into peace negotiations with General Villa as he had made on previous occasions recently, reiterating that his was not a campaign for the elevation of personalities, but for principles of the revolution; that his opponenets were "reactionaries and desirous only of satisfying personal ambitions."

Outlining his plans for the future Carranza said that he soon would dominate the situation and would grant amnesty to all who were not guilty of crimes. General Villa and his associates, however, according to General Carranza, must either leave the country or be tried by a military court.

General Carranza's views did not surprise officials here, as he has consistently ignored all offers of peace made by the Villa-Zapata faction as well as suggestions of foreign mediation in domestic affairs.

No advices have been received officially as to the outcome of the reported differences between General Carranza and General Obregon. Enrique C. Lorente, Washington repre-sentative of the Villa-Zapata governments, gave out two messages received here by Manuel Bonilla, ex-cabinet minister under Madero, one from General Villa and another from General Angeles, denying that any friction ex-

isted. All Red Cross funds available for famine relief in Mexico have been exhausted and the society issued another urgent appeal for foodstuffs and Twenty thousand persons money. were reported as practically starving in Guerrero.

This time it has been discovered that the steam engine was known in Egypt as early as the year 200 B. C. The machine in question was a rotary affair and more theoretical than practical. A Greek adaptation of the same idea was used a little later for turning the spit. Then steam power dropped out of sight for centuries.

WASHINGTON MOVES TO HINDER ANY NEW REVOLTS IN MEXICO

Washington, D. C. - The United States government has determined that so far as it can prevent there shall be no further revolutionary movements in Mexico and that American territory, at any rate, shall not be used as a base for such expeditions. This, it became known officially Tuesday, led to the arrest of General Victoriano Huerta and General Pascual Orozco at El Paso, and forms the ground for strict surveillance now being maintained by agents of the Department of Justice on Generals Felix Diaz, Mondragon, Blanquet and Felipe Angeles and other Mexicans of prominence now living in the United States. Assistant Attorney General Warren conferred with Secretary Lansing, after which the intention of the government to prosecute vigorously all violations of neutrality laws, irrespective

of the prominence of the individuals or their affiliations, was revealed. According to information thus far they do we can do nothing to over gathered, there are at least four sepcome them. ### Austria and Germany Joyful Over **Recapture of Galician Capital**

London - "Amid demonstrations of joy by the populace, General von Boehm Ermolli entered Lemberg at 4 o'clock in the afternoon Thursday with the troops of the second army," says the official Austrian communication regarding the recapture of the Galician capital.

The news of the fall of Lemberg produced an outburst of wild joy throughout Austria and Germany, says a dispatch from Amsterdam to the Exchange Telegraph company. Berlin and Vienna are flag bedecked. A holi-

day was given the school children of Germany and Austria. On the other hand, the Russian army

is in retreat of the most disorderly character and in panic, in fact, according to news dispatches sent to Berlin by correspondents in the Galician field. Emperor William of Germany and Emperor Francis Joseph of Austria-Hungary exchanged long telegrams of felicitation. The sultan of Turkey telegraphed at length, both to Berlin and Vienna.

#### Japanese Drink Puzzles.

Salem, Or .- Does sake, the Japanese national beverage, come under the ban of the prohibition law that will become effective January 1 next? This is a question which K. Kumasaki, Japanese consul in Portland, has asked the attorney general to answer. First Assistant Attorney General Van Winkle, not being familiar with the drink, wrote Mr. Kumasaki that the answer depended upon whether sake was a spiritous, malt or vinuous liquor. Mr. Van Winkle said that all he knew of the beverage was it was made of rice.

#### **Revenue Below Estimate.**

Washington, D. C .-- Customs officials declared that the revenues from customs now in hand for the fiscal year which ends June 30 amount to more than \$204,000,000 and there is a prospect for the year that they will be close to \$210,000,000. This would be \$30,000,000 below the estimates made by Secretary McAdoo last fall and less by more than \$80,000,000 than the receipts last year before the European war interfered with imports.
