

# THE STAYTON MAIL

Has the Largest Circulation of Any Paper in the Santiam Valley—It Covers the Territory Like a Blanket.

21st Year, No. 39.

STAYTON, MARION COUNTY, OREGON, THURSDAY, OCTOBER 21, 1915.

Serial No. 1023

## HIGH SCHOOL MOVES IN NEW BUILDING

The Stayton high school moved into the new building Monday morning, although the lower floors were not quite finished.

The heating plant is completely installed and gives good satisfaction. The assembly hall or study room is one of the most modern in the state, and the recitation rooms are fitted with tablet arm chairs.

D. C. Davis arrived Monday morning to take charge of the Commercial Department, which occupies the two northwest rooms on the upper floor. About twenty are enrolled in that department alone.

Prof. Gauntt will use the recitation room in the rear of the assembly for his classes, and Miss Tiffany the room to the south, while Clyde Hoffer will teach music, art and writing for the grades in the room to the southwest of the assembly.

It is expected that the grades will be moved to their commodious and modern rooms next week, while the teachers are attending the County Institute at Salem, which begins Monday, and lasts until Wednesday night.

The pupils, as well as the patrons, should feel proud of the new building, and should do everything in their power to keep it in a first class and up-to-date condition.

It is said on good authority, that Stayton's schools rank as high as Silverton or Woodburn, towns of twice this size. Let everyone, who is in any way connected, try their very best to keep the school in that plane.

## HIGH JINKS BY REBEKAHS

Posters are out announcing a regular High Jinks time at the I. O. O. F. Hall Saturday night, Oct. 30. Make your plans to be there.

## MAIL AND TELEGRAM BOTH ONE YEAR \$3.00

That it pays to advertise in the Stayton Mail, was evidenced by the way things sold at the two public sales this week. Don't be misled. The Mail has the largest circulation of any paper that comes in, or is printed in this territory. The Mail has been established 21 years. The Mail is known in almost every household from Gates to Turner. We can save you money on any paper or magazine for which you wish to subscribe. For one more week we will sell the Mail and the Daily Telegram for \$3.00 both one year.

## GETS EYE CUT OPEN

A piece of hot steel flying from a white hot cold chisel, which the young man was tempering in water was the cause of Jesse Aplet, son of Oscar Aplet of near Lyons, nearly losing his eye one day the first of the week.

The steel cut a glancing gash in the eye ball letting out the outside watery fluid. Dr. Brewer of this city succeeded in getting the wound closed and the eye is filling nicely, with many chances of complete recovery of sight.

## HOW TO SAVE TIME

In these days when everyone is using the telephone and the mail for business purposes, we know that a large number of our subscribers are using the mails in renewing their subscriptions.

We always like to see your cheerful faces in our office, but we realize that you use the telephone or the postoffice for the same reason we do—to save steps, and we are perfectly willing to have you send us your orders by post.

But in renewing your subscription this year, we wish to inform you that can, if you wish, secure four magazines by adding 18 cents to the regular price of our paper—make your check to include the great magazine club we have advertised elsewhere in this issue of the paper. Look over the remarkable club of high class magazines we offer you in connection with our own paper for only \$1.18 a year—not \$1.18 extra, as you may be inclined to think when you look over the advertisement and see the publications offered—but \$1.18 pays a year's subscription to our paper and to four magazines besides.

Drop us a line right away—so that we can get your name in our next order to the publishers. You ought to get every bit of your reading matter from us while this bargain offer holds good.

## TEACHERS' INSTITUTE WILL START MONDAY

The annual Teachers' Institute will convene at the Salem High school building on Monday, October 25, at 9:30 o'clock.

The sessions will continue through Tuesday and Wednesday. All public schools in the county will be closed during this time, the teachers being compelled by law to attend.

A good program has been arranged for the institute. One half of the time being devoted to general addresses by prominent educators of the state and one half to department sessions. The teachers are grouped, according to their work, into the following departments: Rural, primary, intermediate, advanced and high school.

Problems of teaching, school management and discipline, will be presented by the instructor of the department and discussed by the teachers.

Lectures will be given at the general sessions as follows:

"Professional Progress" E. D. Ressler, Corvallis, Oregon. "The Philosophy of the Teacher" Supt. J. A. Churchill, Salem, Oregon. "The Adaptation of the Gary System" to the Ordinary School" L. R. Alderman, Portland, Oregon. "The Paramount Importance of the Rural School" E. T. Reed, Corvallis, Oregon. "Play and its Meaning to Child Life" B. W. DeBusk, Eugene, Oregon. "Parent-Teacher Organizations" Emma Frazelle, Portland, Oregon. "Club Work" F. L. Griffin, Corvallis, Oregon. "What to say in telling Children the Life Story" Harriet Heller, Portland, Oregon. "The Converted Public" M. S. Pittman, Monmouth, Oregon. W. M. Smith, Supt. Marion county, Oregon.

## Good Goods---

Good Drugs, Good Cigars, Good Sodas at Beauchamp's Drug Store.

## MARION COUNTY CORN SHOWS WILL BE COMING OFF SOON

Seven Corn Shows will be held in Marion county this fall. The places and dates are as follows:

Mt. Angel	October 22-23
St. Paul	" 25-26
Aumsville	November 5-6
Silverton	" 10-11-12-13
Woodburn	" 18-19-20
Aurora	" 22-23-24
Salem	December 1-2-3-4

At a recent meeting of the Marion County Potato Growers' Association it was decided to make an exhibit of potatoes at the Marion county corn show. Each local corn show has also added potatoes to its list so that the entire county will be represented. A farmers institute will be held in connection with each show.

The introduction of corn into our cropping schemes will do much to improve our general agricultural conditions. It supplies a profitable cultivated crop to take the place of summer fallow on the grain farms and clean culture in the young orchards. Fifteen bushels of corn to the acre will pay the cost of production under ordinary conditions. All above this may, therefore, be added to the cost of clean tillage or summerfallow as net profits. A conservative estimate of yields on lands that are now in summerfallow every third year is 50 bu. per acre. Records of this year's yields in every section of the county warrant the above estimate. In fact, many fields that have but recently adopted a suitable rotation are yielding from 35 to 50 bu. per acre.

Besides changing a year of total loss to a profit, a rotation of clover, corn, and grain will double the yield of grain. Greater yields means greater economy of production and, therefore, greater net returns. As a general guide to selecting exhibits for the corn and potato shows, the following suggestions are given:

Dent Corn—The ears should be ripe, uniform in size and shape, rows straight, butts and tips well covered, kernels deep and closely set, rough at outer ends. Smooth, glazed kernels indicate a run-out seed, a reversion to

## CHIROPRACTIC TREATMENTS ARE EXPLAINED

For the benefit of those who are unfamiliar with my treatments I give here a brief definition of chiropractic.

Chiro-practic is a system of adjusting the articulation of the bony framework of the human body, especially asymmetries of the spinal vertebrae, for the purpose of removing the cause of the disease by the correction of subluxations (partial displacements or dislocations) thereby removing the pressure, impingement or tension from the nerves having their passage between, through or around the structures subluxated. The subluxation is corrected with the hands, using the bones of the body, more particularly the processes of the vertebrae of the spine, as levers to which is applied a peculiar adjustive movement.

There are some who think that Chiropractic treatments are beneficial only in cases of hysteria or other purely nervous disorders, but there are thousands of people who can testify to having been relieved or cured of chronic stomach trouble, constipation with its attending ills, kidney and liver troubles, gall stones, rheumatism, lumbago, heart disease, female weaknesses etc., in a large percentage of cases when every other known method of healing has failed.

I do not profess to be a "cure all" but I do claim that the history of chiropractic shows a wonderful success in the treatment of human ills.

My terms are not exorbitant, in fact there is no need to suffer longer with your illness for fear of being robbed for treatments as they are within the reach of everyone, and furthermore I do not take your money unless I am sure I can give you relief.

Offices over Deidrich's store across from post office. Dr. O. A. Sand.

## SOME SHOT

Andrew Rauscher claims to be some shot with a rifle, if you don't believe it, ask him how many times he shot at a plaster of paris jackrabbit up at Goldendale, Wash. The last shot was fired at a distance of about 12 feet after Mr. Rauscher had sneaked up on poor bunny for nearly a hundred yards. Andy will be home Saturday and tell you all about it.

## JUST THE RIGHT PRESENT

Don't take chances in the matter of Christmas presents. You don't want yours, like so many others, to be received with indifference or worse, and ten days after Christmas to be cast aside and forgotten.

You take no chance in giving the Youth's Companion for a year.

Did you ever know of a home in which it came amiss, or of one in which it was not conspicuous on the library table or in some one's hands all through the year?

It is worth while to make a gift of that sort, and it is worth while to receive it, too, for The Companion illustrates the best traits in American life in its stories and sketches, upholds the best standards in its articles and other contributions, and combines the practical and informing with the entertaining and blood-stirring.

If you do not know The Companion as it is today, let us send you one or two current issues free, that you may thoroughly test the papers quality. We will send also the Forecast for 1916.

Every new subscriber who sends \$2.00 for the fifty-two weekly issues of 1916 will receive free all the issues for the rest of 1915 and The Companion Home Calendar for 1916.

The Youth's Companion, Boston, Mass.

New subscriptions received at this office.

## BODY OF DR. RANSOM WAS FOUND YESTERDAY

A telegram came through Stayton, via Aumsville this morning stating that the body of Dr. Ransom of Mill City, who had been lost in the mountains of the Jackson Hole country of Wyoming for several weeks, had been found by the searchers, and that an examination of the body led to the belief that the unfortunate man had been killed by the accidental discharge of his own rifle.

Complete details will appear later.

Your attention is called to the ad of Young's Cash Grocery in another column.

## CATHOLIC FORESTERS HOLD BUSY MEETING

Over two-hundred members of the Beneficial-Fraternal organization, representing five lodges gathered at Sublimity last Thursday night, October 14, in a "Get-Together" meeting.

After a short business session, an open meeting was held, among the speakers being, Hon. Thos. Brown of Salem, Chas. Hottinger of Sublimity and W. F. Klecker of Stayton. Henry Steinkamp presided.

A good social meeting was held and refreshments were served by the Sublimity lodge. About fifteen members of the local camp in Stayton were present.

J. H. Missler was Tuesday appointed by Judge Bushey as administrator of the estate of Adam Missler who died intestate in Turner, October 14, leaving personal property to the value of \$5,700. The only heirs are J. H. Missler, a son residing at Stayton, and May Forrest, a daughter residing at Turner.

## EARLY PIONEER DIES AT TURNER

Adam Missler of Turner died at his home Thursday, October 14, at the advanced age of 82 years. His wife preceded him about two years ago. On account of sickness in the home, the funeral was held at the Turner cemetery, where he was laid to rest, and was conducted by the Methodist minister of that city.

Mr. Missler was born in Germany in 1833, and emigrated to America in 1851. Seven years later, in 1858, he came to Oregon, and spent his busy life on his farm near Turner until about eleven years ago when he moved to Turner.

He is survived by one son, J. H. Missler, of Stayton, and one daughter, Mrs. May Forrest of Turner.

Mr. and Mrs. John Brooks and Mr. and Mrs. Skafie, all of Silverton visited at the C. A. Luthy home Sunday. Mrs. Brooks and Mrs. Skafie are sisters of Mrs. Luthy.
