Declares No Bitterness Held Toward Enemy—British Minister Tells of Last Visit to Prisoner.

London.—The British foreign office made public Saturday the report of Rev. H. S. T. Gahan, the British chaplain in Brussels, who visited Miss Edith Cavell just before her execution, and a letter, from Brand Whitlock, the American minister to Belgium to Walter Hines Page, the American ambassador in London. In his letter, Mr. Whitlock says he requested that the body of Miss Cavell be delivered to the School for Nurses, of which she was the directress, his request being referred to the ministry of war in Berlin. Rev. Mr. Gahan in his report says:

"On Monday evening, October 11, I was admitted by a special passport from the German authorities to the prison of St. Gilles, where Miss Cavell had been confined for 10 weeks. The final sentence had been given early that afternoon.

"To my astonishment and relief I found my friend perfectly calm and re-

"She said that she wished all her friends to know that she willingly gave her life for her country and said: 'I have no fear nor shrinking. I have seen death so often that it is not strange or fearful to me.'

"She further said: 'I thank God for this ten weeks of quiet before the end. My life has always been hurried and full of difficulties; this time the rest has been a great mercy. They have all been very kind to me here.

"But this I would say, standing as I do in view of God and eternity: I realize that patriotism is not enough. I have no hatred or bitterness towards anyone."

"A German military chaplain was with her at the end and afterward gave her a Christian burial. He told me:

"She was brave and bright to the last. She professed her Christian faith and said she was glad to die for her country. She died like a heroine."

Villa Soldiers Fight Federals.

Douglas, Ariz.—A sharp fight between the advance guard of General Villa's soldiers and a detachment of Carranza troops from Agua Prieta, Sonora, occurred Sunday between Agua Prieta and Fronteras, according to reports received here. The Carranza commander issued no statement as to the outcome.

The skirmish was said to have resulted when General Calles sent a train toward Fronteras to meet 150 deserters from the Villa column, who were reported to have deserted when they learned the United States had recognized General Carranza.

California Jersey Wins.

San Francisco.—By just three pounds of butterfat did Pearl of Venera, a Jersey cow owned by Guy C. Miller, of Modesto, Cal., win the championship in the Jersey class at the Panama-Pacific exposition cattle show. Pearl beat Mohican's 38, owned by E. L. Brewer, of Satsop, Wash., by two-tenths of one per cent. Judgment was based on their verified milk record for one year. Other prizewinners included Albion L. Gile, Chinoook, Wash., for junior and reserve junior champion cow classes.

Cordoba Made New Coin.

San Juan del Sur, Nicaragua.—The final conversion of the currency of Nicaragua will be concluded October 30, after which the cordoba will be the only legal tender of the republic. The cordoba, the new monetary unit of Nicaragua, is of the same weight and fineness as the gold dollar of the United States. It was announced recently that the final rate of exchange agreed on was 12 1/2 pesos of the old currency for one cordoba.

WIRELESS TELEPHONE CARRIES VOICE ACROSS ATLANTIC OCEAN

New York—Arlington, Va., talked by wireless telephone with Paris, France, Saturday. Honolulu also heard the operator talking from Arlington.

Announcement that the human voice had been successfully projected across the Atlantic was made on behalf of John J. Carty, chief engineer of the American Telephone & Telegraph company, at the company's offices here. Later Mr. Carty telephoned from Chicago, confirming the announcement.

To B. B. Webb, a telephone engineer fell the honor of being the first man to speak with his voice the space between the old world and the new. Sitting in the powerful wireless plant of the navy at Arlington, Va., Mr. Webb, shortly after midnight, asked the wireless telegraph operator to signal Eiffel tower in Paris.

The wireless snapped out the signal and soon there came back a response. Awaiting word from Mr. Webb at the Paris end of the wireless radiation were H. E. Shreeve and A. M. Curtis, other engineers, and a group of French officers, listening with especially designed apparatus.

In Honolulu, 4800 miles from Arlington, Mr. Eschench, another telephone engineer at the Pearl Harbor navy yard, also was waiting.

Webb, at Arlington, had a transmitting instrument, but no receiving apparatus. He knew, therefore, that he would have to wait for the cable to confirm the success or failure of the experiment.

"Hello! Shreeve," he shouted into the mouthpiece. "Hello! Shreeve."

He then began to count: "One, two, three, four; one, two, three, four, Goodbye."

When the expected message came it was addressed to the company here, and said that Webb's "Hellos" and "Goodbyes" had been distinctly heard by the engineers and French army officers in Paris, and that portions of his test figures had also been picked up. At about the same time there came a message from Honolulu, saying that Webb's talk had been understood in full by the receiving engineer there, and that even the voice had been recognized as Webb's.

Northwest Manufacturers and Land Products Show Is Scoring Success

Portland.—The Second Annual Manufacturers & Land Products Show opened Monday, October 25, and the great industrial and land exhibition will be in progress until midnight, November 13.

This is the greatest exposition of the kind the Northwest has ever seen and twenty-three Oregon counties have attractive displays of fruits, grains, grasses and vegetables. The agricultural and horticultural display is equal to the Lewis & Clark Fair, of 1905.

More than 200 exhibitors have part in the big exposition and 75,000 square feet of space is occupied by displays of Oregon manufacturers and jobbers and retailers from over the country.

The exposition was open to Oregon, Washington, Idaho and the Northwest in general. Clarke county, Washington, has an attractive display and there are many exhibits of apples, pears, potatoes, onions and nuts. Life and action prevail at the exposition and working exhibits and interesting models are many.

All steam and electric lines serving Portland are offering fares of one and a third for the round trip and sale dates have already been announced. While the exposition is in progress many cities, towns and communities will have special days at the show.

Employers Endorse Military Training.

Washington, D. C.—Indorsements of the administration's plan to create a great continental army for defense are beginning to reach Washington from large employing firms and corporations. It was learned that approving letters had been received from several such concerns, and that at least one had expressed willingness to grant its men leave on full pay for services in the proposed organization.

One of the companies heard from wrote that it would gladly grant leave with pay to any of its men desiring to enlist, not only for reasons of patriotism, but because it was regarded as a good business proposition to permit the men to take advantage of an opportunity to spend two months in vigorous camp life with military training.

Big Lumber Order Due.

Aberdeen, Wash.—Grays Harbor millmen are preparing bids on the government order, soon to be let, for 7,780,000 feet of Douglas fir to be used in the Panama Canal zone.

The specifications, which have been received here, include everything from fancy ceiling to heavy timbers. The request for proposals give the grading rules of the West-Coast Lumber association prominence. Bids will be opened November 5. The material is to be delivered at Colon or Ancon between January 1 and March 1.

Chicago.—The 12 words proposed by the Simplified Spelling Board, in its efforts to accustom the general public to the use of simplified spelling, were indorsed by the Illinois Daily Newspaper association in a communication to its members throughout the state.

The words approved are: Tho, altho, thru, thruout, thoro, thoroly, thorfare, program, prolog, catalog, deolog and pedagog.

Holds Breath 10 Minutes.

Berkeley, Cal.—What is said to be a new record for voluntary suspension of respiration has been made by Warren D. Eggs—Fresh ranch, 47@50c; cold storage, 27@28c dozen.

Portland.—Dollar wheat was again in evidence in the local market. Ten thousand bushels of November bluestem changed hands at the Merchants' Exchange at this price. Another sale of 10,000 bushels of bluestem for this month's delivery at 99 1/2 cents was posted. Country dealing at about the same basis or higher has been reported for several days. One lot was bought in Eastern Oregon, a special transaction, at equal to \$1.02.

By consistently holding out for high prices the farmers of the Northwest have succeeded in forcing the market up 8 to 10 cents a bushel since the first of the month, and this in the face of a steadily rising freight market. The last steamer reported taken was at 100s, but it is stated that owners are now asking, with the Canal closed, 120 to 125s. Exporters continue to buy, however, and they are compelled to pay the prices farmers demand.

The bluestem purchases at the Exchange were at advances of 1 to 1 1/2 cents over Monday's prices. Other bids for the near months were unchanged. December offers, which were too low when first posted on Monday, were adjusted to bring them into line with the other deliveries.

Barley bids were raised 25 to 50 cents. Oats were irregular, from 25 cents lower to 25 cents higher.

Patent flour was still available at the former price, but the market was inactive. The export market was reported inactive.

Reviewing conditions in the European wheat markets, Broomhall says: "Strength in wheat is due entirely to American advance and heavy Continental takings, but the advance is considered extraordinary in the face of big American crops and strong freights. Importers are obliged to pay unexpected prices and it is feared that this advance will continue, or at least as long as Continental buyers follow the advance."

Northwestern Hops in Demand.

Portland.—About 1000 bales of hops were bought in the Northwest Wednesday. All the details of the transactions were not available, but it is understood the prices were the same as those current for the past week or more. Louis Lachmund purchased 300 bales more of the McLoughlin crop at Independence. The McKay lot of 180 bales at St. Paul was also sold. Two lots of Western Washingtons, those of George Richter and Fremont Annis, were disposed of. Yakima sales included the Stewart crop of 125 bales and the Slavin lot of 75 bales.

Potatoes Are Poor at Genesee.

Genesee, Idaho.—The potato crop in this section is light this year and the quality of the potatoes is not the best. This is the shortest crop this section has had in many years. Considerable wheat changed hands here the past few days, selling around 83 cents a bushel. The Farmers' Union warehouse is shipping quantities of hogs. The prices are better than they have been for some time, the last shipment being around 6 cents.

Huckleberries Drug on Market.

Portland.—Southern Oregon grapes were in larger supply this week. Among the receipts were several shipments of good Tokays, which brought 90 cents to \$1 a crate. Concord was scarce and sold at 15 cents. California grapes were unchanged.

Huckleberries continue more or less of a drug on the market, and though quoted at 4@5 cents, are hard to move.

Cut the Cost of Living!

A plate of hot biscuits or muffins, a fresh, home-baked cake, a loaf of brown or nut-bread, rescues any meal from the commonplace, and more expensive things are never missed.

With K C, the double acting baking powder, good results are doubly certain. There's economy too, in the cost of K C.

Hadn't Served it Before.

Once a short little woman and her tall husband went to a cafe of the cheaper sort for dinner.

"Will you have oysters?" asked the husband, glancing over the bill of fare.

"Yes," said the little woman, as she tried in vain to touch her feet to the floor. "and, Henry, I want a hascock."

Henry nodded, and as he handed his order to the waiter, said: "Yes, and bring the lady a hascock."

"One hascock?" asked the waiter, with what Henry thought more than ordinary interest, as he nodded in the affirmative. Still the waiter did not go but brushed the tablecloth with a towel and rearranged the articles on it several times, while his face got red.

Then he came around to the husband's side, and, speaking in a whisper, said: "Say, mister, I haven't been here long, and I'm not on to all these things. Will the lady have the hascock broiled or fried?"

Don't Worry About That Itching Rash

Don't worry any more about that itching skin-trouble. Just spread a little resinol ointment over the sick skin and the itching disappears as if you had simply wiped it away!

And—even more important—this soothing, healing ointment gets right to the source of the trouble and rarely falls to clear away every trace of the unsightly, tormenting eruption.

Doctors have prescribed resinol ointment for over twenty years, and thousands owe their clear, healthy skins to its use. It contains nothing that could injure or irritate the tenderest skin. Sold by all druggists.

What a Bosche Is.

Until the war broke out few Americans had heard the word bosche or boche, the French soldiers' nickname for a German. It doesn't appear in the Academy's dictionary or in such editions of Littré as most of us can get hold of. In Delvaux's slang dictionary its definition is "Mauvais sujet, dans l'argot des petites dames, qui le preferent au miche"; which last word Delvaux defines as "jeune homme poli, doux, amiable, reserve." A letter from Thomas Ogilvy to the Spectator supplies some additional information. He says M. Theodore Joran is his authority for saying that Littré does define bosche, and defines it as ulcer or perforated tumor. M. Joran thinks it related to the Latin bucca, which means first the cheek, regarded as a puffy thing, and then, according to Harper's Latin dictionary, "one who fills his cheeks in speaking, a declaimer, bawler," and also "one who stuffs out his cheeks in eating, a parasite."

MRS. THOMSON TELLS WOMEN

How She Was Helped During Change of Life by Lydia E. Pinkham's Vegetable Compound.

Philadelphia, Pa.—"I am just 52 years of age and during Change of Life I suffered for six years terribly. I tried several doctors but none seemed to give me any relief. Every month the pangs were intense in both sides, and made me so weak that I had to go to bed. At last a friend recommended Lydia E. Pinkham's Vegetable Compound. I tried it and found relief. After that I had no pains at all and could do my housework and shopping the same as always. For years I have praised Lydia E. Pinkham's Vegetable Compound for what it has done for me, and shall always recommend it as a woman's friend. You are at liberty to use my letter in any way."—Mrs. Thomson, 649 W.
