We are glad that Mrs. Lewis Stout, who has been on the sick list for some time is improving.

Roy Steward decided to be good Sunday, so he says to dad, "Can I have a horse today? I guess I'll go to church." After he gets Dad's consent, Roy starts off happy but when he gets about half way to Mehama, just on top of the Blum hill, he decides to give his horse a little rest. We do not know how long it rest but it was long enough that Roy found company before continuing his journey.

J. J. Blum had the misfortune of losing some cattle caused by the wind blowing a straw shed on them.

We are informed that J. W. Apple has traded his farm for property in Salem. Mr. Apple will be missed by his many friends. "Apples will be scarce next fall."

Lost—A big whole heart, a reward given to finder, if returned to Fannie Blum.

If we get much more snow we are going to call on the editor of the Mail to send us some of Stayton's hot air peddlers and see how it will effect the snow.

The Tuxedo Hour

by Walt Mason

Tuxedo's bully all the time; it makes the passing hours sublime, and by its soft and gracious curves it soothes the soul and rests the nerves, and fills my bosom, once again, with peace on earth, good will to men. But best I like it when I've fed this face of mine with jam and bread. When I have dined on Irish stew and beans and boiled potatoes, too, and pie and eggs and cheese and tripe, 'tis then I best enjoy my pipe. When from the table I withdraw, I grip my briar with my jaw, and fill it with Tuxedo mild—the pure Tuxedo undefiled—and smoke away in perfect bliss; no pleasure can compare with this. And in the curling smoke I see a world that seemeth good to me. A world that's debonair and gay, its woes and worries done away. The plans that seemed foredoomed to fail, the work that seemed of no avail, now wear the rosy glow of hope, and I endorse all sunshine dope. 'Tis thus in my Tuxedo hour; the world that seemed so dark and dour, is blooming like a rose of spring, and I'm in mood to laugh and sing.

"I don't think that stenographer you sent me is speedy enough for the work."
"Why, sir, that girl can write 200 words per minute."
"She may be able to write 200 words per minute, but she has to expend about two minutes to each word looking it up to see how it is spelled."

Flies Fleo Blue.

A French scientist is authority for the statement that flies have a distinct objection to the color blue. This was first discovered by a farmer who keeps a large number of cows in several sheds. One of these sheds happened to be painted blue on the inside, and in this the cows were little troubled by flies. He blueed all the walls and thus protected all his cows.
