The Stranger—Why are you driving the car so fast?
The American—To get to the ferry.
Later, at the ferry:
The American—We have 20 minutes to spare.

The Stranger—I knew it. In this country you will race the car, burn up gasoline, imperil lives, run the chance of being arrested and kill a chicken to gain 20 minutes for which you have no use when you get them.—Life.

ELDERLY WOMEN SAFEGUARDED

Tell Others How They Were Carried Safely Through Change of Life.

Durand, Wis.—"I am the mother of fourteen children and I owe my life to Lydia E. Pinkham's Vegetable Compound. When I was 45 and had the Change of Life, a friend recommended it and it gave me such relief from my bad feelings that I took several bottles. I am now well and healthy and recommend your Compound to other ladies."

—Mrs. MARY RIDGWAY, Durand, Wis. A Massachusetts Woman Writes: Blackstone, Mass.—"My troubles were from my age, and I felt awfully sick for three years. I had hot flashes often and frequently suffered from pains. I took Lydia E. Pinkham's Vegetable Compound and now am well."

—Mrs. PIERRE COURNOYER, Box 239, Blackstone, Mass.

Such warning symptoms as sense of suffocation, hot flashes, headaches, back-aches, dread of impending evil, timidity, sounds in the ears, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness and dizziness, should be heeded by middle-aged women. Lydia E. Pinkham's Vegetable Compound has carried many women safely through this crisis.

Spring Plowing is Delayed.
Baker, Or.—While farmers are thankful that the return of winter this week has checked the possibilities of floods injuring the fields, it has set back spring plowing. Farmers had just started to break ground, with the hopes of an extra long season, when the snow and cold stopped work. With the prospect of a long season and an unusual amount of water for irrigation, much new land is to be broken and bumper crops of all kinds are expected in the Snake River country, where the season is already well advanced.

Bulk Grain Handling Discussed.
Dayton, Wash.—At the tri-county meeting of the Farmers' Union of the counties of Walla Walla, Columbia and Garfield, the subject of handling the grain this year was discussed. The price of sacks is practically prohibitive, so it is quite probable that many grain tanks will be erected preparatory to handling the crop in bulk.

Fast Seeks Wheat.
Portland—The recent advances in the Eastern cash wheat markets have resulted in putting more life into the wheat trade here than it has had for several weeks. Prices in the Northwest are now once more on a parity with Chicago, and a fair amount of business is being done in wheat, mainly the red varieties, for shipment to the Eastern states.

Huge Sums Spent for Chewing Gum.
Washington, D. C.—The chewing-gum habit has cost the American people for chicle alone nearly \$35,000,000 in the last ten years, or almost five times as much as we paid Russia for Alaska, according to figures furnished by the Bureau of Foreign and Domestic Commerce, of the Department of Commerce. Normally our annual imports of chicle amount to 7,000,000 pounds, for which we pay about \$2,500,000 in the countries of origin, and to which must be added customs duties in our own ports of about \$750,000. Imports of chicle gum during the fiscal year 1915 were as follows: From Mexico, 2,197,000 pounds; from Canada, 2,181,000 pounds; from British Honduras, 1,139,000 pounds; from Venezuela, 952,000 pounds; from the Central American republics, 26,000 pounds; from all other countries, 5,000 pounds. Chicle is not produced in Canada, but large quantities from other British possessions are handled through the Dominion. In 1913 the total imports of the gum amounted to 13,759,000 pounds, and that is the record importation for any one year. In 1915 the total was 6,500,000 pounds. Chicle is the dried milky juice of the sapodilla tree, which is one of a large family of tropical trees known as bully-trees. Some of the gum is used as a substitute for gutta serena, but the bulk of it is used in the manufacture of chewing gum.

How to stop dandruff and loss of hair with Resinol
Here is a simple, inexpensive treatment that will generally stop dandruff and scalp itching, and keep the hair thick, live and lustrous:
At night, spread the hair apart and rub a little Resinol Ointment into the scalp gently, with the tip of the finger. Repeat this until the whole scalp has been treated. Next morning, shampoo thoroughly with Resinol Soap and hot water. Work the creamy Resinol lather well into the scalp. Rinse with gradually cooler water, the last water being cold. All druggists sell Resinol Soap and Ointment.

Save Money on Your Stump Blasting—

The explosives that get stumps out cleanest and cheapest are those that have a heaving and lifting effect, shattering the stumps just enough to break them up. Then you can handle them easily.

"The farmer," says an Experiment Station, "should use an explosive that stands all ordinary shocks of handling and does not easily freeze. He does not need the expensive nitro-glycerine explosives." Thousands use

Made Him Nervous.
A crowd of dirty-faced urchins were playing dangerously near the edge of a Providence pier. Suddenly an old man, who had been a fidgety onlooker from the cabin of his boat, emerged from his favorite post and proceeded to soundly thrash one of the lads in question.

Some passer-by, surprised by his actions, stopped to question the old tar thereon.
"Wal, I'll tell yer," said the old fellow as he regretfully ceased his hold on the lad's collar. "Tain't as I care a hang whether they fall in or whether they don't, but it's the dang'ous uncertainty about it that I can't stand."—Judge.
