**Not a Musician.**

**The Pepper Vine.**  
The most common and widely used of all spices is pepper. It is a native of the East Indies, but is now cultivated in various parts of the tropical belt of this hemisphere. The plant is a climber and has a smooth stem sometimes twelve feet long. The fruit is about the size of a pea and when ripe is of a bright red color. In cultivation the plant is supported by poles. In some localities small trees are used instead of poles, for the best pepper is grown in a certain degree of shade.

## Tuxedo Fans by Walt Mason

Tuxedo fans are always loyal to that one brand, superb and royal. They say, "What is the use of trying the other kinds, and sample buying? We know Tuxedo can't be beaten; it's good as bread, when bread is wheat; it keeps us all in cheerful humor, and makes of each an ardent boomer; it with a blissful peace annoys us; Tuxedo never disappoints us. It is the worker's one consolator, when Business, with its big steam roller, has run him down and left him jaded, with all his dreams and prospects faded. 'Tis then Tuxedo smooths the wrinkles, and to his sad eyes brings the twinkles, and braces him for future battles, down where the loom of commerce rattles." These fans are found in every station, in every trade and occupation; the able jurist and the baker, the boss or many a rolling acre, the butcher, as he sells his rasher, the banker and the haberdasher, the cattleman in far Laredo, all pin their faith to good Tuxedo.
