School has commenced. Were your children backward in their studies last year? If so it may be due to eye trouble of some kind. An education obtained at the expense of eye sight, is of small value. It is better to obtain both by seeing that the children's eyes are right. Children cannot tell you whether their eyes are right or wrong. Bring them to Dr. Turner and let him give their eyes a most thorough searching and scientific examination with the latest improved electrical instruments, and he will tell you whether they are right or wrong. Is not such information almost beyond price? Yet there is no charge for consultation or examination. If they do not need glasses, Dr. Turner will most positively not recommend them. You owe this to your children. Dr. Turner will be at Hotel Stayton, Tuesday Oct. 24.
