

NEW YORK FOR G. O. P.

Hughes' Lead in State is Approximately 75,000.

New York, Nov. 8.—Charles E. Hughes led President Wilson in the presidential contest with a plurality of 75,000. Wilson's lead in Greater New York was about 40,000, while Hughes led upstate by 104,000.

The democrats made gains in several industrial cities upstate, but the country districts remained overwhelmingly republican. The most notable increase in the democratic vote was in Buffalo, second largest city in the state, which Hughes carried by only 3637, although it was carried by Whitman for governor two years ago by more than 19,000. Slight democratic gains also were shown in Rochester, Syracuse and Albany, the banner republican cities of the state.

From returns received it was apparent that Charles S. Whitman had been re-elected governor over Samuel Seabury, his democratic opponent. William M. Calder, of Brooklyn, a former representative to congress, was elected United States senator over William S. McCombs, former chairman of the democratic national committee, by a large majority.

Returns showed that the republicans had gained one congressman.

DRYS GAIN FOUR STATES

Michigan, Montana, South Dakota and Nebraska Are Declared Certain.

Chicago, Nov. 8.—Prohibition made noteworthy gains in yesterday's election. Its greatest victory was in Michigan, where it is asserted on the returns at hand that all the remaining wet spots in the state have been eliminated. This includes the city of Detroit, the great industrial center, which voted to wipe out the saloons by a majority of 25,000. This puts out of business 3208 saloons and 79 breweries.

The wet and dry issue was up in eight states: Michigan, Montana, California, Missouri, Nebraska, Florida and South Dakota. The prohibition leaders asserted they were certain to win in four of these, Michigan, Montana, South Dakota and Nebraska, with excellent chances of making gains in the others, principally Florida and parts of Missouri.

Incomplete returns from California indicate that the "wets" lead by large majorities.

MILES POINDEXTER

Re-elected United States Senator from the State of Washington.

Spiteful.

At a local picture show a painter hung a notice under his highly prized landscape, "Do not touch with canes or umbrellas." Some one who was not an admirer of his works added to the notice, "Take an ax!"

Discord.

"What are those two men on the stage singing?" asked the wife. "A duet," replied the husband. "I know. But what piece are they singing?"

"The one on the right is singing 'Home, Sweet Home,' but I never heard that thing the other one's singing."—Yonker's Statesman.

Damascus Swords.

It is seldom that a really good specimen of a Damascus sword can be obtained, for the art of working and engraving the kind of steel of which they are made is lost. These famous swords were made of alternate layers of iron and steel so finely tempered that the blade would bend to the hilt without breaking.

Fancy Living.

Probably no form of athletic exercise is so full of thrills for the spectators and so remarkably fascinating for the athlete as is fancy diving.

The dives are not so very hard for the average young person to learn, and the plain front and back dives are really very simple. For the athlete who has practiced tumbling diving becomes very easy indeed. There is little or no danger from a springboard if there is sufficient depth of water under it—Outing.

WILSON APPARENTLY WINS WASHINGTON

Lister, in Late Spurt, Passes McBride for Governor—Poindexter Has Lead.

Seattle, Wash., Nov. 8.—Reports from all over the state indicate that a heavy vote has been cast, with President Wilson maintaining a consistent lead over the republican nominee, Charles Evans Hughes.

The surprise of the vote so far is the strength of Governor Ernest Lister, democrat, who in a late spurt passed Henry McBride, republican.

United States Senator Miles Poindexter will be re-elected by about 35,000 plurality over his democratic opponent, former United States Senator George Turner. Defeat overwhelming is indicated for both initiative No. 18, the so-called hotel liquor bill, and initiative No. 24, the brewers' bill.

HENRY MCBRIDE

Probably Elected Governor in the State of Washington.

Representatives in congress, Albert Johnson, in the third district; Lin Hadley, in the second, and W. L. LaFollette, in the fourth, will be re-elected, all republicans. The republicans will have two more in John F. Miller, from the first district, and Tom Corkery, in the fifth.

The cities seem to be inclined to Wilson, although giving the republican nominees for governor and senator good leads.

In Seattle 190 voting machines were used for the first time, and the results were attended with the usual confusion. Some voters took as long as 10 and 12 minutes in spite of the fact that the regulations gave the election officials authority to order the voter out unless he could mark his vote in two minutes. Where voters had studied the operation of the machines before they entered booths the results were satisfactory.

Georgia Strong for Wilson.

Atlanta, Ga., Nov. 8.—Returns indicate that of 135,000 votes cast throughout the state, 100,000 were democratic.

Tennessee in Line for Wilson.

Memphis, Tenn., Nov. 8.—Tennessee will go overwhelmingly for Wilson for president, but there is a close race between John W. Overall, republican, and Thomas C. Rye, democrat, for governor.

Louisiana for President Wilson.

New Orleans, Nov. 8.—Returns indicated that President Wilson has carried Louisiana by 60,000. Democrats elected eight congressmen.

Alabama for Wilson by 60,000.

Mobile, Ala., Nov. 8.—Returns indicate Wilson's majority in this state will be 60,000. In 1912 it was 59,919.

Australia's Lyre Bird.

The lyre bird of Australia is a noted mimic. In the early morning hours it is at its best, duplicating the whistle of a locomotive, the barking of a dog, the call of a magpie and the buzz of a circular saw in varying tone.

Accidents of Etiquette.

"Circumstances that in themselves seem trivial," remarked the philosopher, "may mold the destinies of all society."

"Yes," replied the precise person. "I shudder to think of what we might be enduring if some British king had inadvertently set the fashion of eating with his knife."—Washington Star.

Foolish Expense.

Topping—The doctor says I can't play golf. Brasse—You didn't pay him a fee for that?—Boston Transcript.

Glacier Ice.

Glacier ice is not like the solid blue ice on the surface of the water, but consists of granules joined together by an intricate network of capillary water-filled fissures. In exposed sections and upon the surface of the ice can be observed "veined" or "banded" structures, veins of a denser blue color alternating with those of a lighter shade containing air bubbles. The cause of this peculiar structure has been the subject of much theorizing among investigators, but the greatest authorities concede that the explanation is yet wanting.

School Notes

Guy Hurt, the star forward of last years basket ball team, enrolled as a senior in the high school this week.

A model House of Representative was organized by the Student Body last Friday afternoon, with William Ryan as Speaker. A committee of committees was elected to take charge of the introduction of bills, etc. in this Model House.

Friday afternoon, after the daily recitations were over, the High School Student Body, seventy-five strong, marched through the main streets of Stayton, carrying banners, singing their High School song, and giving their school yells. It was certainly a stirring exhibition of school spirit. Their object was to stir up interest in the Parent-Teachers' Association meeting to be held that evening. Judging from the crowd which attended the meeting on such a stormy night, they were well repaid for their efforts.

The H. S. Pennmanship class 3 keeps steadily increasing. The Second lesson to be sent in to The A. N. Palmer Co. will start Friday. We are glad to see such an interest in this line. We have one from the eighth grade to enroll with The Palmer Co.

We have new additions to our Art and Glee Club and the results we obtain from both are very satisfactory.

The grades are applying their note reading to some practical work in singing and are doing some creditable work in this line.

The 8th grade class in civil government is doing extra work in the study of election laws and the 12th amendment to the constitution.

The 8th grade class will give their first reception of the year next Friday night at the G. L. Brown home. Much fun is anticipated according to all the planning that is taking place.

The 7th grade has come to the hardest part of their work for this year, in both Arithmetic and English. In Geography they are studying in detail the countries of Europe. At present they are much interested in the study of Germany.

Miss Hollister is reading Soldier Riggdale to her pupils, and in connection with this they are studying the Pilgrim pictures. The pupils are much enthused over this work.

The 4th grade is reading selections from Maggie Tulliver and the Gypsies.
