WHAT IS THE MATTER WITH STAYTON?

As we look over the Oregon Industrial Review from week to week and notice the industries that are being established in other towns throughout the state the thought occurs to us, What is the labor adopt policies of neutrality and avoid all strife. Matter With Stayton? Many of these places where new industries are being established do not begin to have the natural advantages fifteen cents. and resources that Stayton enjoys. One of the most crying needs of our little city is organization and co-operation. The day of individual and unprogressive methods of attracting capital and in- tions. vestors is gone forever, so we had better launch ourselves into the wave of progress that is sweeping, not only America, but, the en- being taken. tire world. What we want and must have is an organization of progressive, wide-a-wake business men who are aggressive and alive to the interests of the entire community.

If we had such an organization and put the claims and natural advantages of our city before the eyes of prospective investors in a convincing manner, backed by men who are broad enough to include the entire community in their propaganda we would be ad- perties of Pacific Telephone Co. at \$10,963,802 as basis for rate ding new in lustries to our town right along. Let us arouse our- making. selves from our Rip Van Winkle sleep and shake off the giant of lethargy and indifference and go out in the world and let prospective investors know we are alive to both their interests and ours.

A clean yard, a neat lawn, clean walks, good fences, and well painted buildings indicate the development of a town. A nice garden, well kept, with plenty of flowers are a further indication of a desire for a cleaner and more beautiful community, as well as road is almost the equal of a double track steam railroad. The its thorough sanitation

Heppner Gazette-Times: "Towns and cities all over the United ial No. 04761 and 04762, we will offer at iatly pay to the Receiver the amount States are considering every possible means for combating the high cost of living. One of the essential ways is by utilizing every foot

OU men get to putting reliance into good stock. Ever since you learned of the rich tobacco of which W-B CUT Chewing is made, there has been a big and increasing demand for it. The idea of shredding the leaf, so that you can get at the tobacco satisfaction without so much grinding and spitting, has made a winning with men also. The little chew that lasts and satisfies is the thing.
