A town is judged by its newspapers. When the average outsider picks up a newspaper from a town in which he is interested in knowing something about, he is impressed with that town's importance by the number of merchants he sees represented in its columns. If the newspaper looks busy to him the natural impression is left on his mind that the town is also busy. This is quite natural. On the other hand if the newspaper he picks up is lacking in local advertising, and only an occasional foreign ad., with possibly a railroad time table and one or two local merchants represented in its columns he will be impressed with the idea that this is about all the town has, and probably pass it up as not worthy of his consideration.

THE Call to the Colors calls for thrift and common sense by everybody. A 10c. pouch of W-B Cut Chewing goes twice as far as 10c.'s worth of ordinary tobacco. That's the big point: W-B Cut isn't ordinary tobacco, it's rich tobacco, and a lasting chew.
