An Opportunity

Now is the time to grub out that old stump that has been in your way for years as there is demand for ship knees and many of those stumps in your pasture and grain field have one or more ship knees in them depending upon the number of large roots and the curves to them. These knees when properly gotten out and cut to the proper size are worth anywhere from \$8 to \$20 each. So here is an opportunity for the farmer to do some clearing and also profit from the stumps taken out.
