## School Notes

Mildred English has entered high school.

The high and grade teachers are taking up the Food Conservation problem and are discussing it each morning with the pupils. Fifteen minutes are given to this work.

Last Friday the high school students were highly favored by some classical piano solos given by Amelia Cossalman of Salem. She spent the latter part of the week here visiting her sister, Miss McIntruff. The numbers rendered were Regellito and "Sextette" from Lucia, played by the left hand alone.

The Basket Ball games of last Friday evening were interesting. The Sophomores took the game from the Seniors by 9 points, the score was 17-8. The Juniors were too heavy for the Freshmen, the score being 21-16. The games for Friday evening are expected to be close, Seniors vs Freshmen and Juniors vs Sopomores. Since the Juniors and Sophs have been successful over the other classmen, they both expect to be the champions of the school after the close of the next game; therefore there will be a fight.

The program given by the Apollo Literary was very good, all numbers were well handled, especially the Wee bit 'o Harmony. The next program will be given by the A-C's Friday afternoon at the usual hour. The following program will be given: Introduction, Beryl McLaughlin; Stunt, Arthur Kelley and Leo Willing; Violin solo, Sylvia Sestak; How I make my teachers laugh, Leo Wier; Mandolin solo, Albert Warren; 40 lines of German, Roy Follis; Talk, Lois Bracken; Army life of brother, Harry Scofield; Reading, Margaret Schaefer; Reasons why Joe failed to arrive at school, Freda Allis; Piano duet, Anna Spaniol and Gladys Hamman; One day on the farm, Albert Croissant.

Blindfold test was given in Typewriting Friday. The general showing was very good. Two students, Caelia Mie'ke and Albert Lulay, wrote four minutes without making a mistake. Margaret Fehlen and Wm. Smith made only one and there were many who made two mistakes. Clyde Hoffer, former music instructor in this school, sent a

bunch of rice from one of the large rice fields of 1400 acres near Princeton, Cal., to the 7th and 8th grade room. The bunch measures 3 1-2 feet in length and is composed of about 90 separate stalks. The yield in that locality is from 70 to 80 sacks per acre and is worth \$4.00 per hundred. The grades are making an extensive study of the rice plant.

A spelling contest was held Friday between the 7th and 8th grades. Sarah Caldwell spelled the whole room down, and George Mielke stood last in the seventh grade.

Loran Lampman has been absent from school for several days on account of illness.

Clarence English has entered Miss Crabtree's room.

An exhibit of cocoa from the Lowney Chocolate Co. has been received for the 5th and 6th to study, and they are making a thorough study.

Greta Ruble brought some flax to school, which has been studied in Miss Marshall's room.

Edith Cavin is absent from school on account of sickness.

In the work of Food Conservation, the first and second grades have decided upon three points by which they can aid the work. First by doing without candy, second by eating brown bread at least one meal a day and third saving their pennies and nickels to give for the soldiers when needed.

About fifty from here attended the Red Cross dance in Scio on Saturday. They report a large crowd and a good time.

J. P. Wilbur and wife accompanied by their daughter, Mrs. Hall and son Jack, returned Sunday from a week end motor trip to Portland.
