John MacCrow, father of Mrs. Joseph Fisher, who died at his home near McCoy, was born in Ontario, Canada, Aug. 2, 1842. He married Miss Catherine Ferguson in 1866, and they came to Oregon, settling in the Waldo Hills. In 1878 his wife died, leaving four children. In 1880 Mr. MacCrow married Mrs. Jane Law Anderson and with her settled in Polk county. Mrs. MacCrow died in 1914, and Mr. MacCrow lived thereafter with his children. He is survived by seven children—Mrs. Andrew Fisher, of Shaw, Ore.; Robert MacCrow, of Goldendale, Wash.; Mrs. Joseph Fisher, of Stayton, Mrs. Geo. Flake, of Markerville, Alberta; Garnet McCrow, of McCoy; Mrs. W. H. Ward, of Goldendale, Wash., and Clarence MacCrow, of Smithfield, Ore. and by nine grandchildren.

AND NOW THEY ARE COOKING TOBACCO TO MAKE IT BETTER

For a good many years The American Tobacco Company has been conducting a series of experiments having as their object the improvement of smoking tobaccos.

And it is interesting to know that one of the greatest of their discoveries was one of the simplest, and that was, that cooking or toasting tobacco improved it in every way, just as cooking most foods improves them.

They took a real Burley tobacco, grown in this country; toasted it as you would toast bread; moistened it to replace the natural moisture driven off by toasting; made it into cigarettes, called them "LUCKY STRIKE, the toasted cigarette," and offered them to the public.

The result has been the greatest demand ever created for any tobacco product in a similar length of time.

The change produced by toasting is not only most wholesome, but the flavor is greatly improved, just as cooking improves meat, for example.

In Keeping With the Big Thought of the Day

The daily press reflects a sentiment throughout the nation which clearly indicates a new condition.

Men are wanted everywhere. The work of this war is being carried on largely by those who never before have been in public office or public work. Men who have been too busy, too engrossed with their own tasks, are leaving their work to others and giving their time and ability to the cause which is ours, yours, everybody's.

It is a time when politics in the ordinary sense must not be considered. It calls for the ability that can be mustered.

Oregon to be a successful part in this unit plan for the defense of Democracy, must likewise place the thought of the times before everything.

In another part of this paper appears the announcement of L. J. Simpson as a candidate for the nomination for Governor on the Republican ticket. Mr. Simpson was urged to become a candidate by his many friends in every part of the state, because of his business record, his understanding and knowledge of Oregon's resources, industries and needs; because of his public-spiritedness, which of recent years has led him to tasks which have been more important to him than his own affairs.

L. J. Simpson is clearly the man who can give Oregon the administration necessary to this plan of National Efficiency.

His campaign will be directed straight to you as voters, as individuals who do your own thinking.

We are firmly convinced that you will not allow politics to influence your decision, and that you will vote for the man who is best fit to help the people of Oregon, develop the state's vast resources, and to prepare for, and participate in, the great reconstruction that is to follow.

We believe you will weigh issues more closely than ever before, and that L. J. Simpson will be your choice.

What You Can Do

First—Talk over his candidacy with your friends.

Second—If you believe that L. J. Simpson is worthy of your support write a letter to this committee.

Suggest how his cause may be advanced. We, in turn, will tell you how you can help.

FORD

THE UNIVERSAL CAR

NOW is a mighty important word if you are going to buy a Ford car. Apart from the uncertain business conditions brought about by the war, there is the greater than ever before demand for Ford cars to take into consideration. Ford dealers cannot "stock up" with cars during winter months to be in readiness to meet Spring trade—because Ford cars are used every day of the year. The demand is just as eager and insistent in winter as it is in summer. If there's six feet of snow in Dakota with temperature below zero, there's warm sunshine and summer flowers in Florida and many other states, and there everybody appears to want a Ford. There's no telling what demands war may make. So don't put off buying; get a Ford car now while the getting is possible. The all-around utility of the Ford car specifies it as something that will be profitable to you. Its usefulness makes its purchase a good investment. Today you can buy one with confidence of delivery, but no promises can be given as to delivery later on. Buy NOW.
