FARM AND CITY LOANS.

If you are paying a high rate of interest, why not refund your loan at a lower rate and more liberal terms. It is not good business to pay a higher rate of interest than the market demands, nor is it good business to keep your surplus funds on time deposits at 3 and 4 per cent per annum when 6 per cent can readily be secured on first Farm Mortgages. If you have money to loan or wish to refund or secure a new one, call or write S. H. HELTZEL, Stayton, Oregon.

KEEP THE KIDNEYS WELL

Health is Worth Saving and Some Stayton People Know How to Save It

Many Stayton people take their lives in their hands by neglecting the kidneys when they know that these organs need help. Weak kidneys are responsible for a vast amount of suffering and ill health, but there is no need to suffer nor to remain in danger. Use Doan's Kidney Pills—a remedy that has helped thousands of kidney sufferers.

The following statement leaves no room for doubt.

L. W. Mulvaney, retired stock buyer, Nineteenth & Polk Sts., Corvallis, Ore. says: "We have used Doan's Kidney Pills in our family for years and when anyone of us need a kidney medicine, they never fail to do good work. Personally I have never found a better remedy for backache and when my back or kidneys get out of fix, a few doses of Doan's Kidney Pills put them right."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Mulvaney had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

CARD OF THANKS

I wish to thank the ladies of Stayton Patriotic League for the kindness they have shown me in presenting me with the knitted socks and sweater.

British Geological Photos.

A committee of the British Association for the Advancement of Science has been engaged for many years in forming a national collection of photographs illustrating the geology of the British Isles. According to the last report the collection now includes upward of 5,000 pictures. More than a thousand of these were taken in Yorkshire. A collection of the same character has been made by the geological survey of Great Britain, which has recently published a list of its Scottish pictures. Both the B. A. committee and the geological survey offer prints and lantern slides for sale. The Tunbridge Wells Natural History society offers prizes for photographs of scenery illustrating geological features. —Scientific American.

Siamese Study in United States.

About fifteen students from Siam have registered at American educational institutions this year to qualify in the professions of law, medicine and civil engineering. Several such students have in the past graduated from American colleges and engineering schools and are now employed by their own government in important public works.

Incidentally they have been the means of introducing American machinery, scientific apparatus and other manufactures into their country. Among the students who left the United States in August were four holders of king's scholarships, and these young men will be educated at the expense of the Siamese government.

Dash or —

General Ian Hamilton, who has a pretty talent for writing, complains that his descriptive messages from the front were sadly garbled by unlettered censors. Which reminds us of the story how some writer protesting the historic charge that "Our army swore terribly in Flanders," said it was really an erroneous rewriting by some luncheon of "Our army advanced with great dash."—Boston Transcript.

Clear Roads for Dispatch Bearer.

After grazing upon the auto truck cover of a recent issue a saddened and cynical reader wrote to Collier's Weekly: "You have made a great mistake. You have placed all the army trucks on the side of the road, leaving ample room for trucks going in the opposite direction to travel without going down in the ditch. My experience with army motor trucks is that they always travel on the crown of the road, and when you see one on the side of the road you can figure that it is broken down."

Collier's replied: "Be this observation true or not, there is one being before whom even the ruthless and disdainful truck driver quails—the dispatch rider. There is no more soul-satisfying sight for a harassed pedestrian in the French war zone than that of a dispatch motorcycle shooting down a road at 80 miles an hour, with a two-mile line of motor trucks and staff cars scuttling hastily into the ditches to get out of the way."
