DIME CAPITALISTS.

In many large banks the bond departments are being reorganized and among new features contemplated is a greater abundance of bond issues in the lower denominations. The innovations arise from the conviction of the directorates that they will soon have to deal with a new type of investor—the type that has never invested before.

Those of us who have been in the habit of putting our savings into bonds hardly realize how widespread an ignorance has existed regarding this class of investment. But any Liberty Bond salesman has realized it by this time. He has worked to exhaustion answering questions which he thought anybody could answer. "What's a coupon?" "Can you buy groceries with it?" "Can you sell a bond after you have bought it?" "Must you take it to Washington to sell it?"

These mysteries are now cleared away, and most people know that you don't save bond coupons up to a total of eleven hundred and then trade them in for premium coffee-pots or tobacco humidors. The Liberty bond campaigns have elucidated these things—and a few others.

It has taught that the bond department of a state or national bank is widely different from a fraudulent bucket shop. Banks of standing cannot afford to offer doubtful securities for sale; they prosper or decline in proportion as their customers win or lose. One cheated customer could set up a squeal that would wreck the institution.

The movies have fed us to repletion on Wall Street romances in which some sinister brokey always plays a leading part, and those who get their ideas from movies felt more inclined than ever to hide their savings in mattresses. But they can do better now.

According to General Du Pont it will take about two years to demobilize the American army. There will be plenty of work for our soldiers to do in France after peace has been signed, so that there is no fear of a period of unemployment at home. On the contrary the work of reconstruction will mean a tremendous circulation of money and its distribution into the hands of the masses in America, and the more readily it is invested by them in sound securities the faster will capital be available for expanding reconstructive programs to more ambitious dimensions.

Peace will bring with it a greater stimulus to saving among the wage earners than ever inspired them before. And here is the key-stone of national prosperity.

TOO MUCH INTERFERENCE.

Various boards, politicians and postal officials have made it very difficult for newspapers to do business.

The zone system putting subscriptions on a cash basis and prohibiting exchanges, has reduced the newspaper output to a minimum. A constant stream of newspapers announce suspension under new rulings and increasing cost of labor and material.

Autocratic orders have in some cases been revoked by the President, but active bureaucrats continue to make life a burden for publishers.

One average city daily newspaper was put to an expense of \$6000 to change its circulation and exchange system to meet new regulations.

Smaller newspapers find it impossible to make all the reports and comply with all the regulations and demands of the departments. Of course, after the war some of these interferences with the liberty of the press will cease, but publishers are disheartened.

The government has not fully appreciated the loyalty or the devotion of the press in helping put through every need of our country. There is not a day but new demands for free publicity are made by various boards and officials on the newspapers that have been crippled.

Intentionally or otherwise, the interference by national authority with problems involved in getting out newspapers has gone too far and must cease.

This will be the greatest Thanksgiving since the days of the Pilgrim Fathers. One hardly knows how to specify the causes for thankfulness. However, we might mention Peace by Victory, President Wilson, Marshal Foch, General Pershing, the French 75's, the Yanks, the Gobs, the 1918 wheat crop, sugar substitutes, cranberry sauce and pumpkin pie. And others to suit your individual taste.

Perhaps swords will soon be beaten into plowshares. During the peace celebration we certainly saw wash boilers and garbage cans beaten into producers of infernal sounds.

When She Goes After an Offender, He Had Better Surrender Peacefully.

Coleman, Tex.—Mrs. John R. Bannister is the new sheriff of Coleman county. All who know her say that when she buckles on her six-shooter and goes out to make an arrest the offender had better make peaceful surrender if he knows what is good for him. It is not meant by this that Mrs. Bannister is a woman of the roughman type—on the contrary she is unassuming, quiet and prepossessing in looks. The sum and substance of it is that she belongs to a stock of westerners that does not know what fear is when it comes to fulfilling what she believes to be her official duty.

Mrs. Bannister's husband, Captain Bannister, who died recently, was sheriff of Coleman county for many years. His wife assisted him in his work in many ways and is said to be thoroughly familiar with the details of the office. It was but natural that she should be elevated to the vacant position, her friends say.
