What Does Testing Mean?

"Testing" means finding specific gravity of battery solution by measuring it with the hydrometer.
The test is simple, but of utmost importance because it is the only means of telling whether your battery is being kept in condition by proper charging or weakened by starvation.
Testing is an important part of the service that you as a user of a Willard Storage Battery are entitled to receive. We will make the test for you or show you how you can keep tab on your battery by testing it yourself every week or two.

When you come for your next test ask for the booklet, "A Mark with a Meaning for You."
