Four hundred thousand persons and
more served in the cafeteria in one
year is the record of the Y. W. C. A.
Hostess House at Camp Lewis, Amer-
lean Lake, Wash.

The majority of the 400,000 diners
were mothers, wives, sweethearts and
friends who went to the camp to visit
their soldiers. The remainder were
soldiers themselves who broke the mo-
notony of "chow" with home cooked
meals. In addition to all these guests,
25,000 little children were cared for in
the nursery and the rest room served
70,000 tired wives and mothers.

The workers at the information
desk received and answered 97,000
questions varying from how to get the
best connections to a destination clear
across the continent, the rates of sol-
diers' insurance and the kind of cre-
dence a girl bride should have in her
living room now that Private John is
coming home from France. Eleven
thousand of these queries required tele-
phone conversations with various
company commanders relative to hunt-
ing up a soldier whose parents had ar-
rived unexpectedly.

nical lawyers to obstruct, delay and
divert justice.

Another aim of the bill amends the
statute relating to change of venue,
and provides that tort actions shall be
tried in the county in which the de-
fendant resides or where the cause of
action arose.

Change in Tax Laws Proposed.
Under a joint resolution introduced
in the house by Representative Hos-
ford, of Multnomah, all property in
the state, except municipal, state and
federal property, would be taxed. The
resolution proposes submission of a
constitutional amendment to the peo-
ple so to amend the constitution.

Provision also is made in the pro-
posed amendment for a personal prop-
erty exemption of \$300. This amend-
ment, if enacted, would remove tax
exemptions on all church, lodge and
other property of a similar nature now
enjoying immunity.

Anti-Trust Bill Offered.
A general anti-trust bill which, it is
declared, is aimed mainly at the so-
called paving trust, but is applicable
to trade and other combinations gen-
erally, was introduced in the senate
by Senators Thomas and Lachmund.
The bill is designed to punish those
who would seek to prevent fair com-
petition and likewise applies to those
who endeavor to fix prices or in any
way limit the production of any com-
modity.

Producers of horticultural and agri-
cultural commodities do not come
within the provisions of the act.

Tax on Gasoline Proposed.
A bill providing for a tax of 1 cent
a gallon on gasoline and distillate was
introduced in the house by the house
committee on roads and highways.

The bill defines what shall consti-
tute the fuel upon which the tax shall
be levied and includes gasoline, dis-
tillate, liberty fuel and such other
volatile and inflammable liquids pro-
duced or compounded for the purpose
of operating motor vehicles, except kero-
sene oil.

All persons dealing in these liquid
fuels are to be known as dealers,
whether engaged in the wholesale or
retail business. All dealers are re-
quired to register their names with
the secretary of state whether it be a
person, firm or corporation name.

Legislative Briefs.
Organization of the joint house and
senate consolidation committee was
perfected with the election of Senator
Dirick, of Clackamas, as chairman of
the committee.

An annual appropriation of \$15,000
to be used by the Oregon Agricultural
college in the investigation of crop
pests was introduced in the house by
the joint committee on horticulture.

The house passed Senator Thomas'
joint memorial urging congress to
eliminate the 10 per cent tax which
the conference committee in congress
proposes to impose on loganberry and
apple juice.

The senate judiciary committee in-
troduced a substitute bill for two others
to withdraw state aid from the
industrial accident commission.

The house by unanimous vote passed
the Deed bill prohibiting any school,
public or private, within the state
of Oregon, from being conducted in
other language but English. The bill
does not prohibit the teaching of
foreign languages, but forbids the en-
tire school being conducted in a for-
eign tongue.

Two resolutions introduced by Rep-
resentatives Kubli and Smith, of Mul-
tnomah, ask congress to permit Oregon
shipyards, to take contracts on foreign
account, and a sweeping legislative
investigation of why the government
is blocking the rebuilding program.

The authenticity of a famous writer in
his book, "Don and Peter," is making
all who read it—including the victims
—chuckle. Nor does "H. G." spare Mr.
Wells.

After calling himself a "counter-
jumper," he puts this description of
his personal appearance into the
mouth of one of his characters:

"A heavy bang of hair assisted a
casual moustache to veil a pasty face
that was broad rather than long, with
a sly, concealed expression . . .
and rubbed together two large, clam-
my, white misshapen hands."

IN HONOR OF DR. VAN DYKE
Gently Organ Installed by Grateful As-
sociates in Church of Which Noted
Man Was Pastor.

A new pipe organ has been installed
in the Brick Presbyterian church, Fifth
avenue and Thirty-seventh street, New
York; "in gratitude for the ministry of
Henry Van Dyke," Doctor Van Dyke,
who was until recently American am-
bassador to the Netherlands, was for
more than twenty years pastor of this
church.

The new organ, which is one of the
most complete and is today perhaps
the most modern church organ in the
United States, is a four-manual instru-
ment of 120 stops and 6,000 pipes, with
electric action. It is really a combina-
tion of six organs—great organ, swell
organ, choir organ, solo organ and
echo organ. The installation includes
also a set of chimes. The echo organ
and chimes will be placed above the
ceiling at the rear of the church, over
the apse. The other parts of the com-
bination are enclosed, each in its own
swell box, and all in one general swell
box, placed in the choir gallery over
the front entrance to the church.

Though the new organ is considerably
larger than the one which it replaces,
no architectural change is evident,
much of the instrument being con-
cealed behind the walls. E. M. Skin-
ner of Boston is the builder of the new
organ, which has been under construc-
tion since the summer of 1917.

It is understood that the organ cost
in the neighborhood of \$35,000. The
fund was contributed by members of
the congregation as a tribute to their
old pastor, under whose leadership the
worship of the Brick church was great-
ly enriched and beautified.

WROTE MESSAGES WITH DYE
Material for Invisible Writing Used by
German Spy Was Obtained From
Silk Hosiery.

A cleverly designed method of opti-
fying the government officials and
furnishing information to the enemy
was revealed in the early days of the
war by the arrest of a man in Paterson,
N. J., by naval intelligence offi-
cers.

The man, held as an alleged spy in
prison in Brooklyn, is said to have
come from Holland and to have been
employed in a silk dyeing establish-
ment in Paterson. His unique method
of sending messages to Germany
called for the use of silk hosiery of a
peculiar dye. It is said that he had
received a dozen pairs of these socks
from German agents in Holland and
that his method was to soak them in
water and use the coloring matter
which they gave forth as a writing
fluid. As this dried it became invisible
until brought out by a special process,
which, however, the federal agents are
said to have worked out.

They, in turn, in learning the secret,
opened his letters and changed the
contents and forwarded the letters.
The information thus received by the
Germans proved of little use to them.

But for a long time, it is said, there
was not enough evidence on which to
convict this man, until one day
through carelessness he left one of
the socks where a naval intelligence
officer found it. When confronted with
this the man is said to have confessed
to the entire project.

Y. M. C. A. in Italy.
The Y. M. C. A. in Italy, as every-
where else, has asserted itself in a
most splendid and generous manner.
While the red triangle, known the
world over as the sign of brotherhood,
is much in evidence in the Italian war
zone, the four letters "Y. M. C. A." are
nowhere to be seen. The reason given
for this is that the Italians, in general,
are opposed to any organization of a
public nature which is controlled by a
religious or sectarian element, a
Washington bulletin says. Such a
file as that of the Y. M. C. A. would
erect a certain feeling of mistrust
among the Italian people as to the pur-
poses of the association.

The officers of the Y. M. C. A. in
Italy have been quick to appreciate
this and in order to work in full har-
mony with the Italians have changed
the name of the association to "So-
cietà (di) Fratellanza Universale" or
"Society of Universal Brotherhood."
Accordingly, the letters "S. F. U." have
everywhere been substituted for Y. M.
C. A.

**NURSES PRODUCE WILD
WEST PICTURE SHOW**
Entertain Roumanian Countess at
American Show in France.
Picture shows are being put on in
France without cameras, scenery or
any of the necessary properties, ac-
cording to reports reaching the Na-
tional Y. W. C. A. from a Y. W. C. A.
nurses' but in a Base Hospital.

Having no film or camera, the
nurses at Base decided to put on a
living picture show and invited a
group of nurses from a nearby hospi-
tal to be the audience. It was a
real thriller, one of the wild and wool-
ly west variety, with bucking bron-
chos and wild rides on broom and
mop horses.

Imagination supplied the scenery,
with the exception of placards, which
announced "the sun" when it was sup-
posed to be shining or "enct" when
the cow punchers rode across the
desert.

Countess Vaccaresca of Roumania,
who had been talking to the nurses on
conditions in the German courts at the
time she was lady-in-waiting to the
Queen of Roumania, was the most ap-
preciative of all the guests.
