ESTIMATE COST OF OPERATION **OF PROPOSED RAILROAD FROM** WEST STAYTON TO STAYTON

enthusiasm. for the fact that owing to the town not having the required population to bond it was necessary that special legislation be had allowing us to bond the town, providing the voters so decided. to the fact that we were about for that purpose. The selection reports that the committee have reward of \$50 offered. Reported This has been done and the bill has passed the legislature and to make an affidavit as to the of a captain became necessary on adopted the following roads for he is staying at home of E. H.

has been signed by the Governor.

the approval of the voters, but every day the talk is getting stronger ers, it was necessary that all ship in Portland last October. and in favor of a railroad.

It is the intention of those who have the matter in hand-and who are working with the city council, to call a public meeting in the near future, at which time the matter of expense, etc., will be explained thoroughly to them before it is placed before the people.

The following is a table of operating expenses. Read it, and when the meeting is called be there to express your views on it.

That the Town of Stayton bond itself for \$75,000 to construct a railroad from West Stayton to Stayton; that an operating company is to be formed who will lease the road from the town and guarantee the payment of the bond with interest as they become due, the payments to be distributed over a period of twenty-five years; at the end of this time, the bonds having been retired, the town will deed the railroad to the operating company.

A survey has been made and the cost of construction determined, which we believe to be very conservative.

The traffic survey, which it is agreed by prominent business men is also conservative, as well as an equally conservative estimate of the operating expense, is given in the following statement.

mate of the operating expense,		Present Cost	
1200 cars logs at \$ 3.00	\$ 3 600.00	by truck	savin
450 cars lumber out at 10.00	\$ 4 500.00	9 000.00	4 500.
